# registration_reports_labels_adjust_printer_settings

# Table of Contents

When printing 30 labels per page, the labels must be printed to actual size. Otherwise, the labels will not print correctly.

1. From the browser toolbar, click **File**, and then select **Print**.
2. From the Print dialog box, click **Preferences** or **Properties**:
    - Click the Effects tab.
    - Under **Resizing Options**, select **Actual Size**.
3. Click **OK** to close the window.

If necessary, adjustments may need to be made to the actual printer.
