Cycle Grade Range 1

Cycle Grade Range

Reports > Cycle Grade Range

The report displays cycle grades that fall within a specified range according to options entered.

- If a posted grade exists, the posted grade is used.
- If no posted grade exists, the override grade is used.
- If no override grade exists, the working cycle average is used.
- If no working cycle average exists, the auto grade is used.
- If no grade exists, the grade is blank.
- Administrative users have the option to view the grades for all courses across the campus.
