### Security Questions & Answers

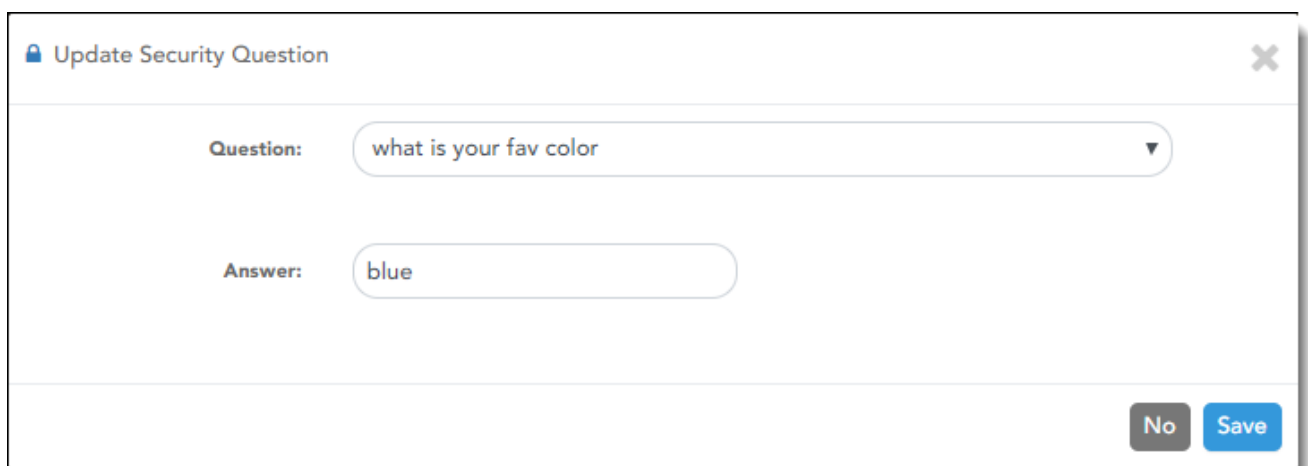

Security questions and answers are used to verify your identity if you have forgotten your password. You can change the question, the answer, or both at any time.

The screenshot shows the 'Security Information' page. It has a header with a magnifying glass icon and the text 'Security Information'. Below the header, there are three rows of input fields. The first row is for 'Password' with a masked input field (dots) and an 'Update Password' button. The second row is for 'Security Question' with a text input field containing 'what is your fav color' and an 'Update Security Question' button. The third row is for 'Answer' with a text input field containing 'blue'.

☐ Click **Update Security Question**.

A pop-up window opens.

The screenshot shows a pop-up window titled 'Update Security Question'. It has a close button (X) in the top right corner. Inside the window, there are two rows of input fields. The first row is for 'Question' with a dropdown menu showing 'what is your fav color'. The second row is for 'Answer' with a text input field containing 'blue'. At the bottom right of the window, there are two buttons: 'No' and 'Save'.

<b>Question</b>	Select a question to which you will provide an answer. This question will be asked in the event that you lose your password.
-----------------	--

<b>Answer</b>	<p>Type the answer to the question.</p> <p>You will be required to answer the question correctly in order to recover your password. Be sure to select a question for which you will easily remember your answer.</p> <p><b>IMPORTANT:</b> The answer is case-sensitive (i.e., you must always type it exactly as it is entered here, including uppercase and lowercase letters).</p>
---------------	--

☐ Click **Save**.
