STANDARDS-BASED GRADING: If the course uses the standards-based type of grading, assignments are associated with specific standards. For these courses, the **Standard Scores** heading is displayed in the table. For each assignment, all associated standards and grades are displayed. Note that assignments may have multiple standards. Also, an assignment may be associated with more than one standard, so you may see the same standard for multiple assignments. The grade for the course is calculated from the scores for the standards, not the assignments.

Some districts use the name **SKILLS-REFERENCED GRADING** to refer to this grading type.
