Admin - Form Usage - Form Completion Data

ASCENDER ParentPortal Admin > Form Management > Form Usage > Form Completion Data

This page is only available to users who log on to ASCENDER ParentPortal with a district- or campuslevel security administrator user name.

This section allows you to view data from the Form Acceptance tables. These tables store data that is collected when a parent makes changes online to his student's registration information or accepts the data that is currently stored in the registration tables. You can retrieve and delete data for a specific form for the entire campus or district, as well as by parent.

If you are viewing data at the district or campus level, you can export the report to a spreadsheet.

Note that different options are available depending on your log on access.

	Select the form for which you want to view acceptance data. Once you select a form, the View at what level field appears.
Select a level	
Total Students Matching Criteria	

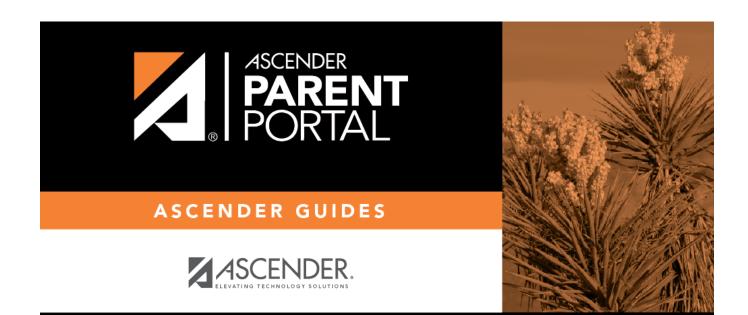

Export data:

Students With	Export a list of students who have records indicating that the data has
Completed Forms	been accepted (with or without changes).
	The report includes the following data: campus, grade level, student
	name, and contact information for the parent/guardian who accepted the
	form data.
tudents With Incomplete	Export a list of students who do not have records indicating that the data
Forms	has been accepted.
	The report includes the following data: campus, grade level, student name, and the contact information for parent 1.

• If you are viewing data at the district level, a district-wide report is generated.

• If you are viewing data at the campus level, a campus-wide report is generated.
