# Static Document Management

**txConnect Admin > Administrator Options > Settings > Forms Management > Static Documents**

This page allows you to maintain a pool of read-only forms that parents can view and print as needed. Static forms are documents that cannot be updated online; they can be viewed, printed, completed by hand, and returned to the campus. These forms will vary by district and campus and may include documents such as campus and district calendars, school supply lists, acknowledgement forms, or surveys.

From the Static Documents page, you can upload forms from your PC to the txConnect server. Parents will be able to access these forms from txConnect for new student enrollment, annual student registration, and ongoing student data maintenance.

**Your static forms should be ADA compliant.**

You can upload documents in the following formats:

- .doc or .docx (Microsoft Word)
  - .pdf (Adobe Acrobat)
  - .xls or .xlsx (Microsoft Excel)
- 
- On this page, you will only upload the documents. You will create a form for each document in a subsequent step using the [Form Management](#) page.
  - If you will be creating English and Spanish versions of static forms, you must upload an English and Spanish version of each form.
