# Admin - Form Creator

## **ASCENDER ParentPortal Admin > Form Management > Form Creator**

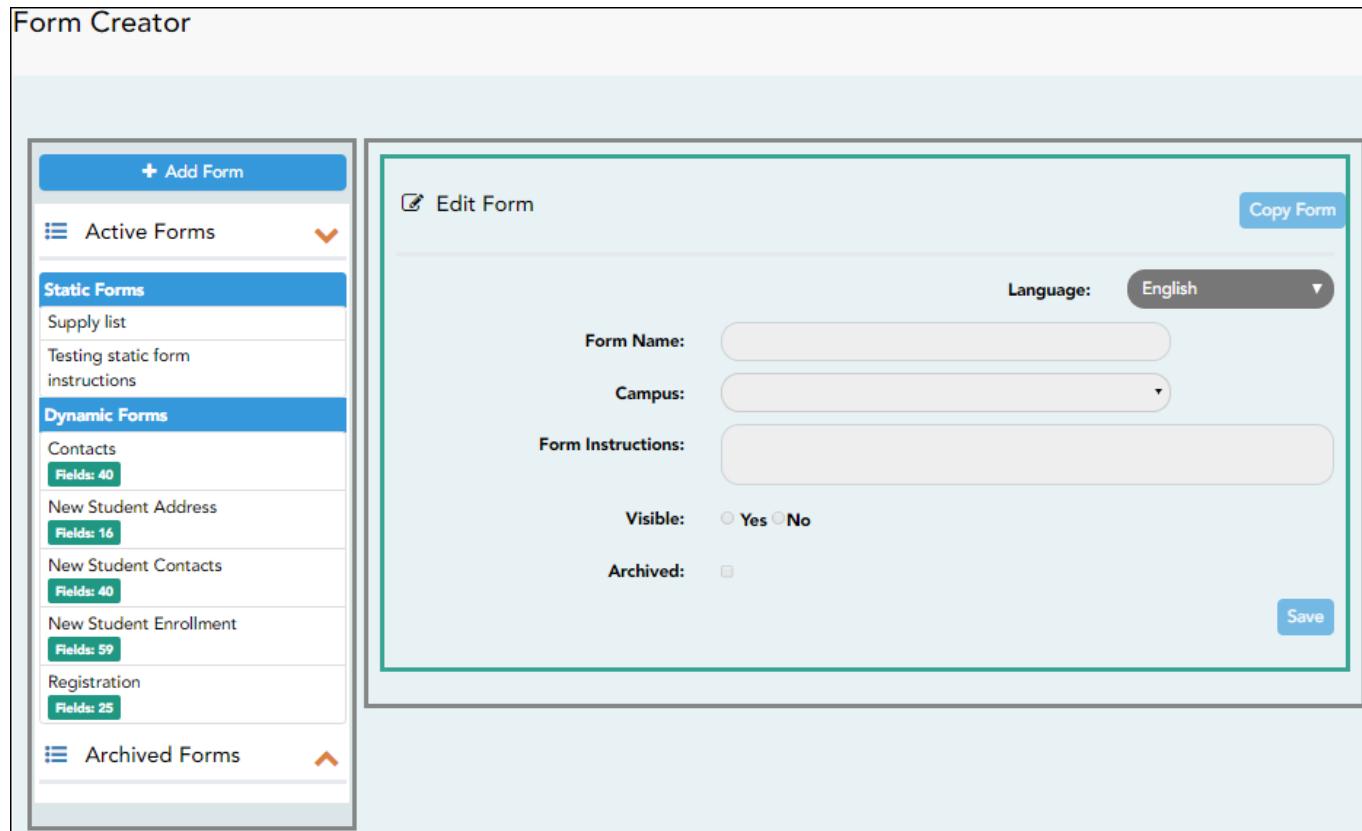

This page is only available to users who log on to ASCENDER ParentPortal with a district- or campus-level security administrator user name.

The Form Creator allows you to create new forms, as well as delete and edit existing forms.

Two types of forms can be created:

- **Static forms** can be created using the static documents you have already uploaded.
- **Dynamic forms** can be created using the fields you selected in previous steps.

**NOTE:** A form must be added to a group in order to be accessible to parents. You will add the form to a group in a subsequent step.

The screenshot shows the 'Form Creator' interface. On the left, a sidebar lists existing forms under 'Active Forms' and 'Archived Forms'. The 'Active Forms' section includes 'Static Forms' (Supply list, Testing static form instructions) and 'Dynamic Forms' (Contacts, New Student Address, New Student Contacts, New Student Enrollment, Registration). The 'Dynamic Forms' section shows 'Fields: 40', 'Fields: 16', 'Fields: 40', 'Fields: 59', and 'Fields: 25'. On the right, the 'Edit Form' screen is displayed. It has a 'Form Name' input field, a 'Campus' dropdown, a 'Form Instructions' text area, a 'Visible' radio button group (Yes/No), an 'Archived' checkbox, and a 'Save' button. The 'Language' dropdown is set to 'English'.

On the left side of the page, any existing forms are listed.

- **Active Forms** are listed first, and **Archived Forms** are listed below active forms.

-  - Click to hide **Active Forms** or **Archived Forms**.
-  - Click to re-display **Active Forms** or **Archived Forms**.

- Forms are automatically grouped by form type (**Static** first, then **Dynamic**).

Forms that have an uploaded document attached are listed under **Static**.

Forms that do not have an uploaded document attached are listed under **Dynamic**.

- Under **Active Forms - Dynamic**, three 'New Student' forms are included by default:

- New Student Enrollment
- New Student Contacts
- New Student Address

The following forms are also included by default:

- Contacts
- Registration

- **Fields:** # indicates the number of fields that have been added to a dynamic form. Static forms do not have fields.

- Hover over the form and click the preview icon to [preview the form](#).

The form opens in a pop-up window or different tab allowing you to view the form as it will be displayed to parents in ParentPortal. In the preview window, data cannot be edited or saved.

## Create a new form:

1. [Create a static form using an uploaded document.](#)

If you uploaded any documents on [Document Upload](#), you must create a form with each document in order to make it accessible to parents. If you have English and Spanish versions of documents, you must upload each document individually.

## Form Creator

Click **Add Form**.

A pop-up window opens.

Note the added fields. These fields cannot be removed; the delete icon  is not displayed.

Click **Save**.

### Form field edits

3. [Edit settings for a 'New Student' form.](#)

*New Student* forms are dynamic forms used specifically for the new student enrollment

process. Several *New Student* forms are included automatically and already have columns (i.e., fields) added.

- New Student Address
- New Student Contacts
- New Student Enrollment

These forms cannot be deleted or renamed; however, you can modify some of the default settings for each form column. See the **Create/edit a dynamic form using data fields** section for more details.

#### Under **Active Forms**:

- Hover over a 'New Student' form and click the edit icon.

The form details open in the **Edit Form** section (right side) where you can add or edit details as described previously.

- To remove a column from the form, click the corresponding delete icon.

It is removed from the list, but it is not actually deleted until you click **Save**.

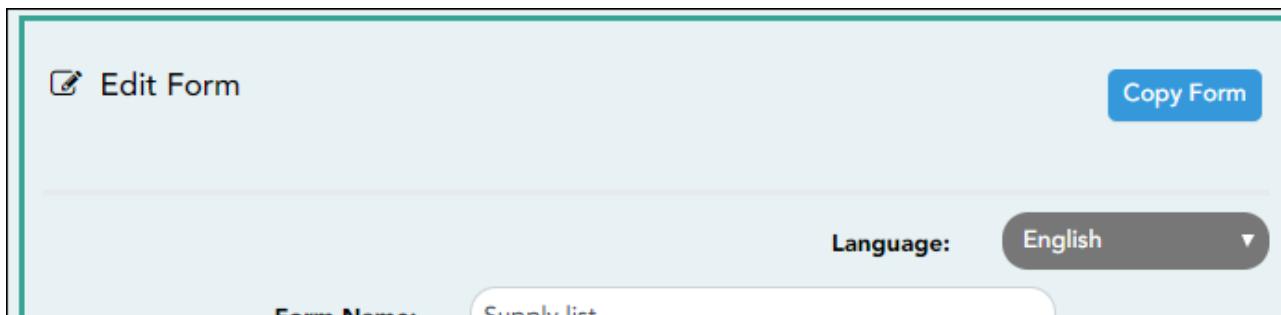

- Click **Save**.

#### 4. [Create a new form by copying an existing form.](#)

An existing static or dynamic forms can be duplicated and renamed.

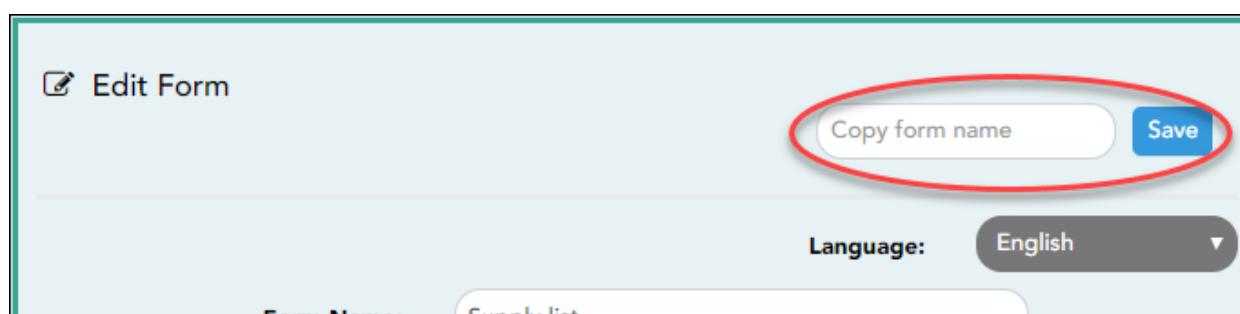

Only saved changes are copied to the new form; unsaved changes are not copied.

- Click **Copy Form** to create a new form that is an exact duplicate of the form you are copying.

A text box is displayed allowing you to type a name for the new form.

The new form name cannot already be in use by another form, and it must be three or more characters.

□ Type the new form name and click **Save**.

The new form is now displayed on the **Active Forms** list and can be modified as needed.

New forms are initially displayed at the top of the list. Once the page is refreshed, the form is sorted alphabetically with the section.

## 5. Create a custom form.

**ASCENDER Parent Portal Admin > Form Management > Custom Forms > Create Custom Form**

### Step 1

If selecting *English and Spanish* for **Language**, the English version will be created first. To translate into a Spanish version, use [Custom Forms > Edit Custom Forms](#).

- You can add a variety of elements to your form.
  - Drag the element from the right to the blank area in the middle.
  - You can drag and drop the elements to re-position them within the form.
  - Click **Preview Form** any time to see how the form will look to parents.

The following two options allow you to provide headings and instructions on the form.

<b>Header</b>	Select to add a heading, up to 50 characters.  Example: <div style="border: 1px solid black; padding: 10px; text-align: center;"><p>PTA Participation Form</p></div>
---------------	---

<b>Paragraph</b>	<p>Select to provide one or more sentences in the form, such as instructions, up to 1000 characters.</p> <p>Example:</p> <div style="border: 1px solid black; padding: 10px; text-align: center;"> <h2>PTA Participation Form</h2> <p>Please complete this form by the end of the first week of school.</p> </div>
------------------	--

The following question format types refer to the answer you are soliciting from the parent.

<b>Date Field</b>	<p>The parent will be asked to type a date or select a date from a calendar widget.</p> <p>Example:</p> <div style="border: 1px solid black; padding: 10px; text-align: center;">  </div>
<b>Number Field</b>	<p>The parent will be asked to enter a number, such as a phone number, street number, or quantity.</p> <p>Example:</p> <div style="border: 1px solid black; padding: 10px; text-align: center;">  </div>
<b>Radio button</b>	<p>The parent will be asked to select one of several options (multiple choice, one answer).</p> <p>Example:</p> <div style="border: 1px solid black; padding: 10px; text-align: center;">  </div>
<b>Dropdown-Multiple Choice</b>	<p>The parent will be asked to select an option from a drop-down list (one or multiple selections).</p> <p>Example:</p> <div style="border: 1px solid black; padding: 10px; text-align: center;">  </div>
<b>Text Field</b>	<p>The parent will be asked to enter a few words or less. You can specify the maximum number of characters the parent can enter.</p> <p>Example:</p> <div style="border: 1px solid black; padding: 10px; text-align: center;">  </div>

<b>Text Area</b>	The parent will be asked to enter a text response that may require more than a few words. You can specify the maximum number of characters the parent can enter.  Example: 
------------------	--

All question format types allow the following properties to be set:

**NOTE:** For Spanish forms, provide this information in Spanish.

**TIP:** Be sure to add questions to the custom form that help identify the student that the information is being gathered for (e.g., What is your student's first name? What is your student's last name? Grade Level? What school does your child attend? (multiple choice)). The form results do not automatically provide default information such as first name, last name, grade level, campus.

<b>Required</b>	Select if parents are required to answer this question.
<b>Label</b>	Type the question as you want it to appear in ParentPortal.  <b>NOTE:</b> Labels should be different for each field on individual forms. This text is for internal use when viewing custom form data.
<b>Tool Tip</b>	Type further instructions for the question if needed. This will be displayed when a parent hovers over a question mark icon  next to the field.
<b>Placeholder Text</b>	Type any text that you want to appear in the field, such as a sample answer or guidance. For example, in an email field, you may type <code>name@email.com</code> . The parent's actual answer will overwrite any placeholder text. For <b>Date Field</b> , the placeholder text is always mm/dd/yyyy.

The following properties depend on the type of question format type selected:

**NOTE:** For Spanish forms, provide this information in Spanish.
