mobile_app

Table of Contents

The ASCENDER ParentPortal uses a Responsive Design approach, which means the software detects the screen size and orientation of your device, and changes the layout accordingly so that you have the best viewing experience.

Some features you may experience as the screen gets narrower:

- The side menu will collapse (i.e., hide). Click to view the side menu.
- Objects on the screen will shift from side-by-side to stacked vertically.
- Grids (such as the student's schedule) will adjust by hiding the columns, beginning with the column furthest to the right. Tap the row to view any hidden data.

Some features you may experience as the screen gets wider:

- Buttons will get wider but not taller.
