Admin - Form Usage - Individual Form Information

ASCENDER ParentPortal Admin > Forms Management > Form Usage > Individual Form Information

This page is only available to users who log on to ASCENDER ParentPortal with a district- or campus-level security administrator user name.

This section allows you to view data from the Form Acceptance tables. These tables store data that is collected when a parent/guardian makes changes online to his student's registration information or accepts the data that is currently stored in the registration tables. You can retrieve and delete data for a specific form for the entire campus or district, as well as by parent.

If you are viewing data at the district or campus level, you can export the report to a spreadsheet.

Note that different options are available depending on your log on access.

Select a form	Select the form for which you want to view acceptance data. Once you select a form, the View at what level field appears.
