Student records are not extracted if the following conditions exist:

Blank or invalid SSN, including 000000000

Blank Texas Unique Student ID

Invalid student record status

Duplicate SSNs (The first student encountered with the SSN is extracted; all others with the same SSN are not extracted.)

Verify the counts for each record type, and determine the reason for each bypassed student.

If students are bypassed:

1. Correct data in the student files.
2. Run the Delete/Clear Tables utility to delete or clear previous data for the desired tables.
3. Re-extract the data.
4. Verify the data.
5. Repeat until no students are bypassed.
