Extended Extract

State Reporting > Extracts > Extended

If you are running the Extended School Year (ESY) services extract, all existing ESY data in State Reporting is deleted. If you are running the Bilingual/ESL Summer School Program extract, all bilingual/ESL summer school indicators in State Reporting are set to 0. After the extracts have run, all demographic records in State Reporting for students who are not coded ESY or bilingual/ESL summer school are deleted.

- Any combination of data can be extracted. Each option displays a separate error report.
- The ESY extract sets the Bilingual/ESL indicators on the State Reporting demographic record if the options are set on the student record.

If you are running the Additional Days School Year Program (ADSY) extract, when selected, this option will create the student demographic, basic attendance, and special education attendance for students participating in the Additional Days School Year Program. It will also create the staff demographic and responsibility records for a teacher with role ID 087 and 047 teaching a designed Additional Days School Year course with at least one enrolled student who is participating in the Additional Days School Year Program.

Extract data:

Info	Ending School Year	(Display only) The submission year as entered in the **Submission Year** field on State Reporting > Options is displayed.
	Local Program Code for Additional Days School Year	(Display only) The district local program code used to track students participating in the Additional Days School Year program is displayed, as entered in the **Local Program for Additional Days School Year** field on State Reporting > Options.
	Local Program Code for Crisis Reporting	(Display only) The district local program code used to track students that may require additional funding, educational, or social services.
	Local Program Code for Early College High School Reporting	(Display only) The district local program code used to track students participating in the Early College High School (ECHS) program is displayed, as entered in the **Local Program for Early College High School Reporting** field on State Reporting > Options.
	Local Program Code for Pathways in Technology	(Display only) The district local program code used to track students participating in the Pathways in Technology (P-TECH) Early College High School program, as entered in the **Local Program for Pathways in Technology** field on State Reporting > Options.
	Local Program Code for T-STEM Academy Reporting	(Display only) The district local program code used to track students participating in the Texas Science, Technology, Engineering and Mathematics (T-STEM) Initiative program is displayed, as entered in the **Local Program for T-STEM Academy Reporting** field on State Reporting > Options.
	Local Program Code for New Tech	(Display only) The district local program code used to track students in grade level 7-12 and enrolled in a New Tech Network campus as identified by the New Tech Network, as entered in the **Local Program for New Tech** field on State Reporting > Options.
School Year Selection	**Current School Year (*xxxx-xxxx* Extended Collection)**	Select if you have *not* run Annual Student Data Rollover. If selected, the **Ending School Year** on the report will display the next school year (2021).
	Previous School Year (*xxxx-xxxx* Extended Collection)	Select if you have already run Annual Student Data Rollover. If selected, the **Ending School Year** on the report will display the current school year (2020).

Programs and Services	Additional Days School Year	Select to extract Additional Days School Year Program data for the Current School Year or Prior School Year.
	Bilingual/ESL Summer School Program	Select to extract bilingual/ESL summer school data. All bilingual/ESL summer school indicators in State Reporting are set to zero.
	Extended School Year Services	Select to extract ESY data. All existing ESY data in State Reporting is deleted. The extract sets the bilingual/ESL indicators in the State Reporting demographic record if they are set on the student record.

❑ Click **Run** to extract the selected records. A message is displayed indicating that the extract is complete.
