State Reporting > Utilities > Import Staff File

This utility is for Student-only districts.

This utility imports basic staff demographic data to be used for the TSDS PEIMS Staff Interchange records (i.e., to join the unique staff ID with a teacher/staff record). Districts that do not use TxEIS Business applications can import staff demographic data to be used for the TSDS Staff Interchange records. The import adds "non-employee" data to HR that will be read by the extract, along with data from TxEIS Grade Reporting. **This utility must be run before running the staff extract.**

File layout

The utility accepts data from a comma-delimited text or CSV file (e.g., provided by a third-party business application vendor) and inserts the records into HR tables which allows you to maintain this data in the ASCENDER TSDS application.
