# Copy applicable calendars from NYR to CYR

Payroll > Next Year > Copy Next Year Tables

**CAUTION: Do not** copy the TR calendar or any calendar that begins in September.

**Note:** If changes were made to the next year payroll tables (extra duty pay, hourly/daily salary, job code, local annual salary, etc.), copy the tables from the next year payroll to the current year payroll.

Next Year > Copy NYR Tables to CYR Payroll

**COPY NEXT YEAR TABLES**

Execute Select All Tables

Accrual Calendar	<input type="text"/>	<input type="checkbox"/>	⋮
Extra Duty Pay	<input type="text"/>	<input type="checkbox"/>	⋮
Hourly / Daily Salary	<input type="text"/>	<input type="checkbox"/>	⋮

OK Cancel

In the **School Calendar** field, select the calendar codes to be copied. The **Title** column will populate with the August calendar codes selected from the table.

Click **Execute**. Only the selected tables are processed. As the reports are generated, click **Process** for each table. [Review the reports.](#)

The screenshot shows a software interface with a 'Process' button highlighted by a black arrow. Below the button is a report window. The report title is 'Copy Next Year Tables to Current Year'. It includes fields for 'Date Run:', 'Cnty Dist:', 'ISD', and 'Table: bhr\_cal\_sch'. The report content is as follows:

Frequency	Calendar Code	Description
6	01	187 DAYS
6	02	197 DAYS
6	03	182 DAYS

The report ends with 'End of Report' and 'Page: 1 of 1'.

A message is displayed with the table names and the number of rows that were copied. Click **OK**.

The screenshot shows a message box with an information icon (i) and the text: 'Process copied records for tables: School Calendar ( 3 rows)'. Below the text is an 'OK' button with a black arrow pointing to it.

Review the process report to verify that all applicable calendars, extra duty pay, and job codes were copied to the current year payroll frequency. **It is recommended** that you log on to **Personnel > Tables > Workday Calendars** to verify this information. If the calendars were not copied over correctly, you may have to individually copy the calendars.

**Note:** When copying the school calendar table from next year to the current year, the calendar code, description, and days are copied. If a calendar code exists in the next year and current year, the next year data replaces the entire calendar contents for the current year for the specified calendar code.
