Asset Management Annual Process	1

Asset Management Annual Process

This process provides you with information about managing asset records and performing end-of-year procedures for Asset Management.

This guide assumes you are familiar with the basic features of the ASCENDER Business system and have reviewed the [ASCENDER Business Overview guide](#).

[Asset Management Summary Quick Checklist](#) (prints separately) - This is a one-page quick checklist of the following steps.

Asset Record Maintenance (performed throughout the year)

Finance

- [Verify object/sub-object codes](#).

Verify object/subobject codes

[Finance > Tables > Asset Management Cross-Reference > Object/Subobject Codes](#)

Verify that object/subobject codes for any assets that need to be carried over exist in the Asset Management Cross-Reference table.

If you need to add object/subobject codes to the table, the codes must exist in the Chart of Accounts.

Tables > Asset Management Cross-Reference

Save

OBJECT/SUBOBJECT CODES

Retrieve Print

Delete	Object / Subobject	Object Description	Type
	6639.00	FURNITURE & EQUIPMENT & SOFTWA	C Capital assets

Create Asset Management Extract File from

Current Period Check Transactions

Processed Check Transactions

Year 1

Acct Period: 9

Thru: 8

Fiscal Year: 1

Year 2

Acct Period:

Thru:

Fiscal Year:

- Under **Create Asset Management Extract File from**, select **Processed Check Transactions** to enable the **Year** fields and complete the **Acct Period**, **Thru**, and **Fiscal Year**

fields for the accounting periods you want to capture.

TIP: The value in the **Thru** field should be the month where you last posted check transactions.

Notes:

- The **Use Asset Management Cross-Reference Table** option on the District Finance Options page must be selected before assets/inventory transactions can be extracted.
- The Asset Management Cross-Reference table must have object/subobject codes for all assets/inventory before assets/inventory transactions can be extracted.

Click **Extract**. The Asset Management Extract report is displayed. Be sure to save or print the report.

- [Import/add asset items from the Finance.](#)

Import/add asset items from Finance

Asset Management > Maintenance > Inventory Maintenance > Transaction Records

Use the file that you previously created in Finance on the Extract to Asset Management page to import asset items. Or, manually add asset items as needed.

The screenshot shows the 'Transaction Records' tab in the Asset Management system. The interface includes a 'Save' button at the top left, an 'Item Nbr.' field with 'Retrieve', 'Add', and 'Directory' buttons, and a navigation bar with tabs for 'INVENTORY RECORDS', 'TRANSACTION RECORDS', 'DEPRECIATION DISTRIBUTION RECORDS', 'BOOK RECORDS', and 'MANUFACTURER INFORMATION'. The 'TRANSACTION RECORDS' tab is active, displaying a table with columns: Delete, Account Code, Account Description, PO Nbr, Check Nbr, Trans Typ, Effective Date, Vendor Nbr, Vendor Name, Amount, and Reason. The table is currently empty, showing 'No Rows' and a 'Total: 0.00'. At the bottom, there are 'Duplicate' and 'Import' buttons, with a black arrow pointing to the 'Import' button.

□ Click **Import** to begin the import process.

The screenshot shows a file selection dialog box. It has a 'Choose File' button followed by the filename 'FINFA_Current_02212022.txt'. Below the filename are 'Submit' and 'Cancel' buttons, with a black arrow pointing to the 'Submit' button.

- Click **Choose File** to select the file that you created from Finance.
- Click **Submit** to import the selected file. A list of assets that can be moved from Finance is displayed.

The screenshot shows the 'Import File' dialog box. It contains a table with the following columns: Select, Fnd-Fnc-Obj.So-Org-Prog, Vendor Nbr, Vendor Name, Inventory Type, Po Nbr, Check / Voucher, Invoice Nbr, Check Date, and Exp. The first row is selected with a checkmark in the 'Select' column.

Select	Fnd-Fnc-Obj.So-Org-Prog	Vendor Nbr	Vendor Name	Inventory Type	Po Nbr	Check / Voucher	Invoice Nbr	Check Date	Exp
<input checked="" type="checkbox"/>	199-32-6299.00-001-	38386	EDUCATION SERVICE CTR REG13	C	180529	042143	0418-DISD	04-12-	
<input type="checkbox"/>	199-32-6299.00-041-	38386	EDUCATION SERVICE CTR REG13	C	180529	042143	0418-DISD	04-12-	
<input type="checkbox"/>	199-36-6299.00-001-	38991	CECILIA MARIN	C	181728	042102	SB Game 3-	04-05-	
<input type="checkbox"/>	199-36-6299.00-001-	37063	LEXINGTON INN	C	181729	042119	SB Game 3-	04-05-	

Below the table, there are two input fields: 'Enter Date Acquired to save as:' and '(Optional) Enter Item Description to save as:'. At the bottom, there are 'OK', 'Cancel', and 'Print' buttons.

- Select the asset to extract from Finance.
- Enter the **Date Acquired to Save As** and click **OK**. The item is now displayed on the Transaction Records tab.

□ Click **Save** to save the item. Repeat this process to continue importing the additional asset

items as only one record can be imported at a time.

For each “C” item record that is \$5,000 and over, you must complete the required fields on the Inventory Records, Depreciation Distribution Records, and Book Record tabs. You can either import all items and then return to each record and complete the fields on the various tabs **OR** complete the fields on the various tabs as you are importing each record. Either way, be sure to click **Save** after entering all data for a record to ensure that the record is updated.

If you have any inventory records that were not imported, you can manually enter those items so that you will have a complete inventory for closing the year. Reference the [Enter Records in Asset Management](#) guide for additional information.

- All *C - Capital Assets* must have a Transaction, Inventory, Depr Distribution, and Book Record entered.
 - All *I - Inventory Assets* must have the Transaction and Inventory tabs completed only.
- (Optional) [Generate the Campus Room Inventory Report](#).

(Optional) Generate the Campus Room Inventory Report

[Asset Management > Reports > Asset Management Reports > BAM1400 - Campus Room Inventory Listing](#)

Generate and distribute the Campus Room Inventory Reports to staff so that they can verify the location and account for the various items.

It is best practice to generate the report in May prior to the end of the school year. Employees can make changes in red ink, sign the report, and then return it to the appropriate department/person allowing them to make the necessary changes in Asset Management. Possible changes may include items moving locations or being sold, broken, or deleted.

Asset Management

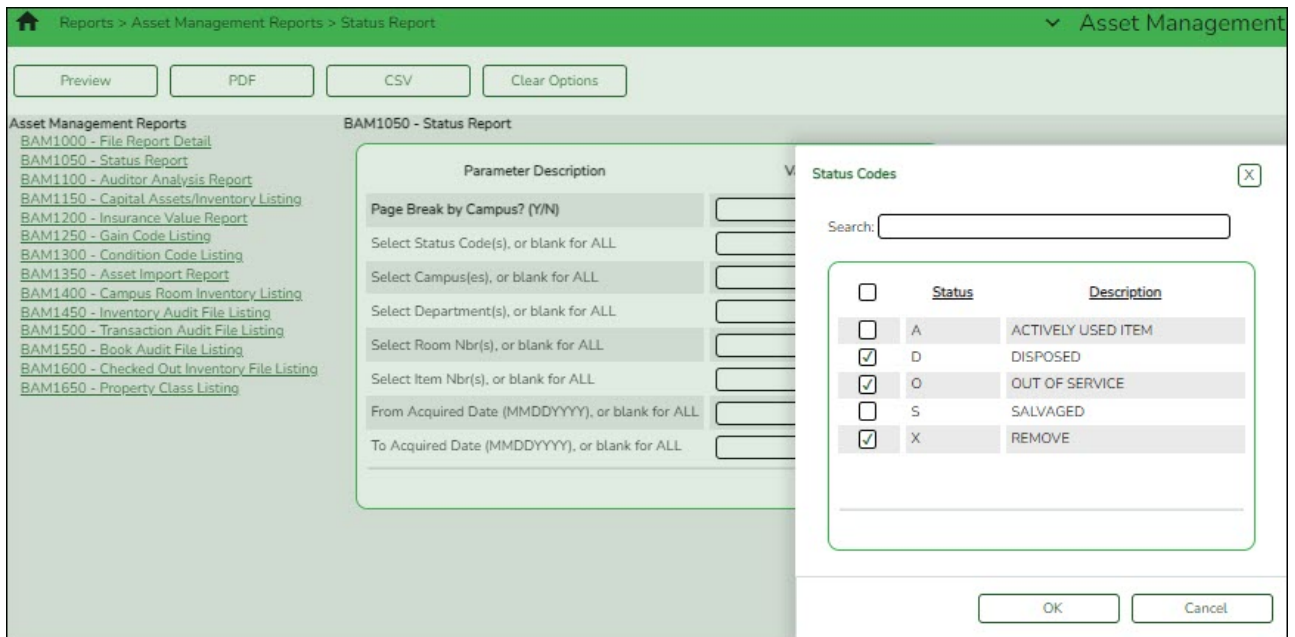

- [Generate the Status Report](#)

Generate the Status Report

[Asset Management > Reports > Asset Management Reports > BAM1050 - Status Report](#)

Generate the report to review any asset items that were sold, deleted, or entered in error. All items entered in error, for sale, or to be deleted must have a status code change on the [Asset Management > Maintenance > Inventory Maintenance > Inventory Records](#) tab to reflect their

status.

Use the status codes created for your LEA that reflect an action to remove the item from the inventory when the EOY process is performed.

Auditors want to see this report. Print and save the report.

- If report totals match, perform depreciation calculations.

If report totals match, perform depreciation calculations

[Asset Management > Depreciation > Depreciation Calculations > Calculations](#)

If the Capital Asset Listing, Auditor’s Analysis, and Property Class reports are correct/balanced and you have reviewed the [Requirements for Depreciation Calculations Checklist](#), perform your depreciation calculations for the year.

Use the arrow buttons to move inventory items to the right side of the page.

- Click **Calculate** to calculate the depreciation of all selected inventory numbers. A message is displayed prompting you to create a backup.

- Click **Yes**. A pop-up window is displayed with the export file name.

- Click **Execute**. A pop-window is displayed prompting you for a password for the archive.

- Enter the password and click **OK**. Continue the process to save the file in the appropriate location.

- Print the report and verify that the new items are listed for depreciation calculations **before** you process. Other Depreciation Reports are listed in Reports menu.

- Select **Recalculate all prior years of depreciation (Also includes current FY.)** check box to recalculate the depreciation of the selected assets for all years in service. If not selected, then the depreciation is only calculated for the current fiscal year.

If necessary, you can run the depreciation calculations screen multiple times. For example, if you added an item that should have been depreciated in a previous year, you can select the recalculate option and it will retro process calculations. Be sure to keep your auditors informed about which items are involved.

If you receive an error report when you calculate the depreciations, review the report and reconcile any issues prior to continuing this process.

- [Copy the current file ID \(C\) to a new file ID for historical purposes.](#)

Copy current file ID (C) to new file ID for historical purposes

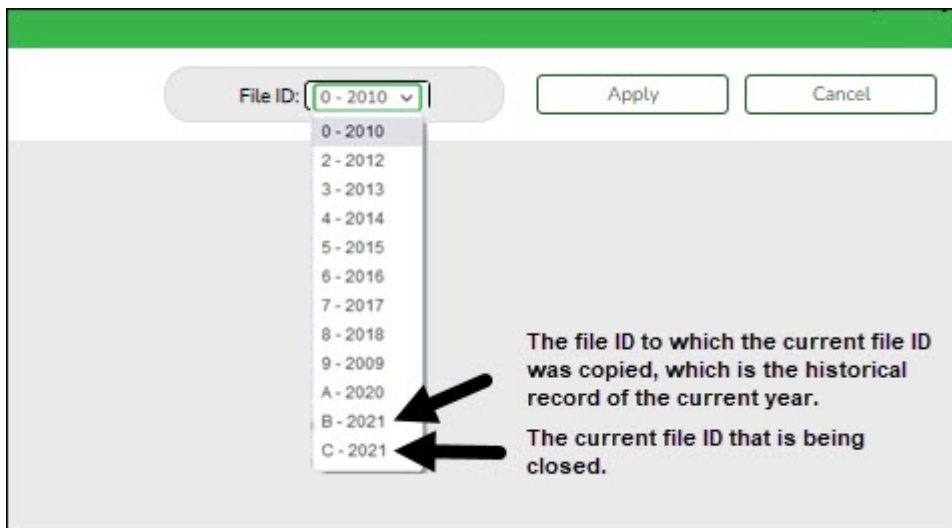

[Asset Management > Utilities > Copy Current to New File ID](#)

Copy the current file ID (C) data into the new historical file ID. This process allows you to copy data that currently exists in file ID C to a new file ID, which will serve as your prior year historical file.

If you need to update any information, you must log on to the new file ID through the Change File ID function and manually make the modifications.

Note: Changes made in one file ID do not update in the other file ID.

After copying data to the historical ID, you can begin making changes as needed to your new current file ID.

Verify that you are in file ID C before completing the following steps.

- [Roll over depreciation distribution funds.](#)

Roll over depreciation distribution funds

[Asset Management > Utilities > Fiscal Year Processing > Depreciation Distribution Fund Rollover](#)

This utility allows you to create new depreciation distribution records and update the fiscal year of the general ledger account codes in the depreciation distribution records. Capital asset records that are selected must meet the following criteria:

- They must exist in the current logged-on file ID.
- They must exist in the current fiscal year, as compared to the Asset Management Options table.
- They must not have been fully depreciated.
- They must not have been disposed of.

ASCENDER
ELEVATING TECHNOLOGY SOLUTIONS

Utilities > Fiscal Year Processing > Depreciation Distribution Fund Rollover

Execute

Enter New Fiscal Year: 20XX

This value will replace the fiscal year in the Asset Management Options in addition to inserting the new depreciation distribution records.

Inven Nbr	Description	Error Message
-----------	-------------	---------------

If you check your dropdown of available file IDs now, you will see the new year has been created in this step.

- Perform a mass delete of all asset items that have been deleted, sold, or entered in error.

Mass delete asset items deleted, sold, or entered in error

[Asset Management > Utilities > Fiscal Year Processing > Mass Delete](#)

Mass delete all records that have status codes associated with the item being deleted, sold, or entered in error. This process will delete those records from the current year file ID; however, the items will still be available in your prior year file ID(s).

Review the report and click **Process**. A message is displayed prompting you to create a backup.

Click **Yes**. A pop-up window is displayed with the export file name.

Click **Execute**. A message is displayed indicating that the process was completed successfully. Click **OK**.

- [Initialize audit tables.](#)

Initialize audit tables

[Asset Management > Utilities > Fiscal Year Processing > Initialize Audit Tables](#)

This utility should be run **after** the auditor has completed their review. This process allows you to delete all selected historical audit files based on the file ID.

It is best practice to create a backup of your files prior to running this utility as this process does modify files.

- Select all three options on the page.
- Click **Execute**. A message is displayed prompting you to create a backup.

- Click **Yes**. A pop-up window is displayed with the export file name.

- Click **Execute** and save the file in the appropriate location. A message is displayed prompting you to continue with the process. Click **Yes**. A message is displayed indicating that the process was successfully completed. Click **OK**.

- [Create export of file ID C.](#)

Create export of file ID C

[Asset Management > Utilities > Export by File ID](#)

Create an export of file ID C as a backup of the beginning new year database. Save the file and record the file name for future reference if needed (e.g., Export File ID C Beginning Year XX-XX)

This is a backup of your LEA's new year inventory without any maintenance.

After completing the above steps, you are now ready to begin the new fiscal year for Asset Management.
