ASCENDER - Budget Process i

Created: 03/09/2018

Reviewed: 02/19/2024

Revised: 02/19/2024

The purpose of this document is to guide users through the Budget processing steps.

Review the following reminders:

- According to TEA Legal Requirements, the budget must be prepared by June 19 for LEAs with a June 30 fiscal year-end and by August 20 for LEAs with an August 31 fiscal year-end.
- The ASCENDER Version displayed on the images may not reflect the current ASCENDER Release Version.
- The Budget and Finance applications are separate applications and do not share data; therefore, updates made in Budget do not affect data in Finance.
- Perform periodic exports (backups) as the budget is processed throughout the spring and summer. It is important to perform an export prior to making a significant change. This allows you to revert data to a certain point in the process, if necessary.
- Verify budget data before approving the budget to meet financial compliance requirements (i.e., special program allotments, NCLB and IDEA-B Maintenance of Effort, etc.) and ensure a high FIRST rating.

This guide assumes you are familiar with the basic features of the ASCENDER Business system and have reviewed the [ASCENDER Business Overview guide](#).

Some of the images and/or examples provided in this document are for informational purposes only and may not completely represent your LEA's process.

Budget Process

1. [Update tables.](#)

Update tables

[Budget > Utilities > Clear/Copy Budget Tables > Copy Finance Tables to Budget](#)

Update the budget account code tables in the next year file ID (file ID N).

☐ Click  to move all code tables from the left side to the right side of the page.

Optional: Select **Preview Data** to view a preview of each Finance table before it is copied to Budget.

☐ If **Preview Data** is selected:

- Click **Execute** to begin the process of copying the Finance tables to Budget. The selected Finance table reports are displayed.
- Review the reports and click **Process** on each report to copy the Finance table data to Budget and continue to the next report. Or, click **Cancel** on the report if you do not want to copy the selected table.
- When the process is complete, a message is displayed either indicating that all tables were copied successfully or that selected tables have not been copied. Click **OK**.

☐ If **Preview Data** is not selected:

- Click **Execute** to copy the Finance tables to Budget. A message is displayed indicating that the selected tables have been copied successfully. Click **OK**.

If this step is not processed, account codes that exist in the Finance file ID but do not exist in the Budget file ID are not updated.

Note: This step adds the fund/fiscal year for the new school year.

2. Update Budget data.

Update Budget data

Budget > Utilities > Update Budget Data

IMPORTANT: Be sure to create an export for Budget Tables prior to using this utility.

Update the Budget **Amended** and **Actual** columns from file ID 3 in Finance or the last completed fiscal year.

Note: For history comparison purposes, it is very important to make sure that all entries for the last school year are updated before preparing this year's new budget file. Entries might include final check runs, journal vouchers, and audit entries that need to be included in the **Actual** column, and any amendments to last year's budget that need to be included in the appropriate budget column. Processing the Update Budget Data utility at this time ensures that all entries are included in the updated amounts.

☐ In the **From GL File ID**, select the prior year file ID (file ID 3) and click **Retrieve**.

☐ Under **Update Column**, select **Amended** and **Actual** to be updated in Budget for the selected fund/year codes.

Amended	Select if you have posted entries in Journal Budget or Amended Budget to Estimated Revenue or Appropriations and did not select Original Budget Only in the Move Budget to Finance utility.
Actual	Select if you have posted entries that have increased or decreased Realized Revenue, Encumbrance, or Expenditures in Finance.

(Optional step - Depends on individual situations.) It is recommended that **Include Inactive** is selected under **Account Code**.

Account Code options

Select one of the following **Account Code** options:

Include Inactive	Select to include inactive account codes and amounts in the list of available account codes to be transferred. If selected, inactive accounts and amounts in the prior file ID are copied. If not selected, inactive accounts and amounts in the prior file ID are not copied.
Use Crosswalk	Select to crosswalk any account code elements for the selected fund/years that exist in the Mask Crosswalk utility. See Mask Crosswalk (Mass Change Account Codes).
Only Existing Budget Accts	Select to include existing account codes and amounts in the list of available account codes to be transferred.

☐ Under **Accounting Period**, select the following:

Current	The accounting period is set to Current by default, which uses the current accounting period amounts from Finance to populate Budget amounts.
----------------	--

☐ Under **Object Description**, select **Description from GL (all account codes)**. This description is retrieved from the Chart of Accounts.

☐ All available fund/year codes from Finance are displayed on the left side of the page. Select the available fund/year codes to move to the right side of the page for the budget account code tables, general ledger accounts.

☐ Use the arrow buttons to move the appropriate funds from the left side to the right side of the page.

☐ Click **Execute** to execute the process. The Update Budget Data Report is displayed with the old and new account codes that were updated. Review the report.

- ☐ Click **Process** to process the changes. You are prompted to create a [backup](#). Otherwise, click **Cancel** to cancel processing.

11. [Manage user profiles](#)

Manage user profiles

Ensure that the user profiles are correctly set up for Budget use in Security Administration and District Administration.

- ☐ Create and manage users on the [Security Administration > Manage Users > Create/Edit User](#) page.

The screenshot shows the 'Edit User' interface in the Security Administration module. At the top, there's a green header with 'Edit User' and 'Security Administration'. Below the header, there's a 'Save' button. The main form area contains several sections:

- User Information:** Fields for Last Name, First Name, Middle Initial, User ID, Profile Name, and Employee Nbr.
- Roles:** A list of roles with 'AA BUSINESS' selected. There's a 'Remove' link and a 'Campuses: Edit' link.
- Manage Permissions (AA BUSINESS):** A section titled 'Applications View' showing a tree of permissions. The 'Budget' role is highlighted with a black box. Under 'Budget', there are several sub-items with checkboxes: 'All Historical File IDs (read-only)', 'Inquiry', 'Maintenance (read-only)', 'Reports', 'Tables (read-only)', and 'Utilities'.
- Set Password:** Fields for Password and Confirm Password, with a checkbox for 'Force Reset Password on Login'.
- ODBC Login:** A section stating 'This user is not an ODBC user. You can add an ODBC login for this user.' with an 'Add' button.
- Pay Frequencies:** A list of frequency options with checkboxes: '4 - BIWEEKLY CYR', '5 - Semimonthly CYR', '6 - MONTHLY CYR', 'D - BIWEEKLY NYR', 'E - Semimonthly NYR', and 'F - MONTHLY NYR'.

- ☐ Set up user profiles on the [District Administration > Maintenance > User Profiles > Accounts](#) tab.

The screenshot shows the 'User Profiles' screen under 'District Administration'. The 'Current User' is Region53, Suzanne. A table of account codes is displayed with columns: Delete, Fund, Func, Obj, Subj, Org, FscI Yr, Pgm, Ed Span, Proj Dtl, AR, BAR, BUD, FIN, PUR, TRAVEL, WHSE, RESTOCK. Two rows are visible. The first row has 'FscI Yr' as 'X' (masked). The second row has 'FscI Yr' as '5' (unmasked). Callouts point to these fields with the labels 'masked fiscal year' and 'unmasked fiscal year' respectively.

☐ Use one of the following options to update the user account codes:

- **Option 1** - It is recommended to mask (X) the **FscI Yr** (fiscal year) field on the user profile. A masked fiscal year on the account code allows the user to access all account code fiscal years (if the user has access to the account code) and alleviates the task of updating the fiscal year each new fiscal year.
- **Option 2** - Depending on the LEA's restriction procedures, manually update the **FscI Yr** (fiscal year) field for each user profile to reflect the new fiscal year. Entering a fiscal year limits access to other fiscal year data.
- **Option 3** - Run the [District Administration > Utilities > Mass Update User Account by Fund](#) utility to update multiple users by fund.

The screenshot shows the 'Mass Update User Account by Fund' utility screen. It has two main panels: 'From FundYr' and 'To FundYr'. The 'From FundYr' panel has a table with columns 'Select', 'From FundYr', and 'Description'. The 'To FundYr' panel has a table with columns 'Select', 'To FundYr', and 'Description'. The 'Options' panel on the right has a table with columns 'Select' and 'Process'. The 'Budget' option is selected in the 'Options' panel. Arrows at the bottom indicate moving items from left to right.

☐ Under **Options**, select **Budget**.

☐ Use the arrow buttons to move the fund/year accounts to be mass updated from the left side to the right side of the page.

☐ Click **Execute**. A message is displayed indicating that the mass update was successfully completed.

12. [Clear next year requisitions.](#)

Clear next year requisitions

[Budget > Utilities > Clear/Move NYR Requisitions to CYR](#)

Skip this step if your LEA does not use the next year requisitions feature.

If your LEA uses the next year requisitions feature, clear the next year requisitions from the database.

- ☐ Leave the **PO Date** field as is (00-00-0000).
- ☐ Select **Clear Next Year Requisitions Only** to clear all next year requisitions from the database.
- ☐ Click **Execute**. When the process is completed, the Clear Next Year Requisitions report is displayed.
- ☐ Click **Process** to clear all next year requisitions from the database.

13. [\(Optional\) Clear Budget tables.](#)

- ☐ Click **Execute** to execute the process. The Update Budget Data Report is displayed with the old and new account codes that were updated. [Review the report.](#)

16. [Create a simulation.](#)

Create a simulation

Use any of the following tabs to create a budget simulation.

- [Budget > Utilities > Mass Increase/Decrease Account Codes > Requested](#)
- [Budget > Utilities > Mass Increase/Decrease Account Codes > Recommended](#)
- [Budget > Utilities > Mass Increase/Decrease Account Codes > Approved](#)

Example: If your user profile only allows access to 62XX accounts and you select, as part of the criteria, to update all 6XXX accounts, only the accounts that meet the 62XX criteria are reflected in the preview report when the simulation is executed. No 61XX, 63XX, 64XX, etc. are included in the calculations.

The screenshot shows the 'Budget' application interface. At the top, there is a green header bar with a home icon, the text 'Utilities > Mass Increase/Decrease Account Codes', and a 'Budget' dropdown menu. Below the header, there is a 'Save' button. The main area has three tabs: 'REQUESTED', 'RECOMMENDED' (which is selected), and 'APPROVED'. Below the tabs, there are several input fields and buttons: 'Simulation Name' with the value '6X +200', 'Retrieve', 'Delete', 'Copy', 'Directory', and 'Execute' buttons. Below these, there is a 'Simulation Description' field with the value 'Add 00 to 6XXX' and a 'Base Column' dropdown menu with the value 'This Yr Amend Budget'. There is also a checkbox for 'Round to Nearest Dollar Amount' and a 'Cutoff Date' of '08-31-2024'. At the bottom, there is a table with columns: 'Delete', 'Seq Nbr', 'Account Code', 'Operator', and 'Percent / Amount'. The table contains one row with a trash icon, '001', 'XXX-XX-6XXX-XX-XXX-X-XX-X-XX', a vertical ellipsis, 'Add', and '200.000'. There is an 'Add' button at the bottom right of the table.

- ☐ Click **Save**.
- ☐ Click **Execute** to execute the process. A Mass Increase/Decrease Budget Account Code Report is displayed. [Review the report.](#)
- ☐ Click **Process** to complete the simulation process.

This utility is used to copy amounts from one budget level to another budget level. All amounts currently in the **From Level** are copied to the **To Level**. This feature enables the user to view and process from different levels. The cutoff date validates against the To level; it does not validate against the From level. The ability to perform this function is not dependent on being authorized to access to the Requested, Recommended, and Approved tabs.

All budget accounts are deleted for each of the funds selected, except:

- If there are any next year requisitions that have not become a purchase order and the attached account codes for the line items match the selected funds, the selected funds are not deleted, and an error message is displayed on the report.
- If there is an account code that is attached to a purchase order encumbrance transaction that matches the selected funds and the encumbrance transaction has not been reversed, the selected funds are not deleted, and an error message is displayed on the report.
