ASCENDER - Credit Card Process

Created: 04/28/2023
Reviewed: in progress
Revised: in progress

The purpose of this document is to guide you through the necessary credit card processing steps, which include processing credit card payments to vendors, reconciling credit card statements, and then processing payments to the credit card company.

This document assumes that you are familiar with the basic features of the ASCENDER Business System and have reviewed the ASCENDER Business Overview guide.

Some of the images and/or examples provided in this document are for informational purposes only and may not completely represent your LEA's process.

Prerequisites

❑ Update roles/users in Security Administration to allow credit card feature permissions. You can add permissions to an existing role or create a new role.

Credit Card Process

Credit card information cannot be edited once charges are posted to a card.

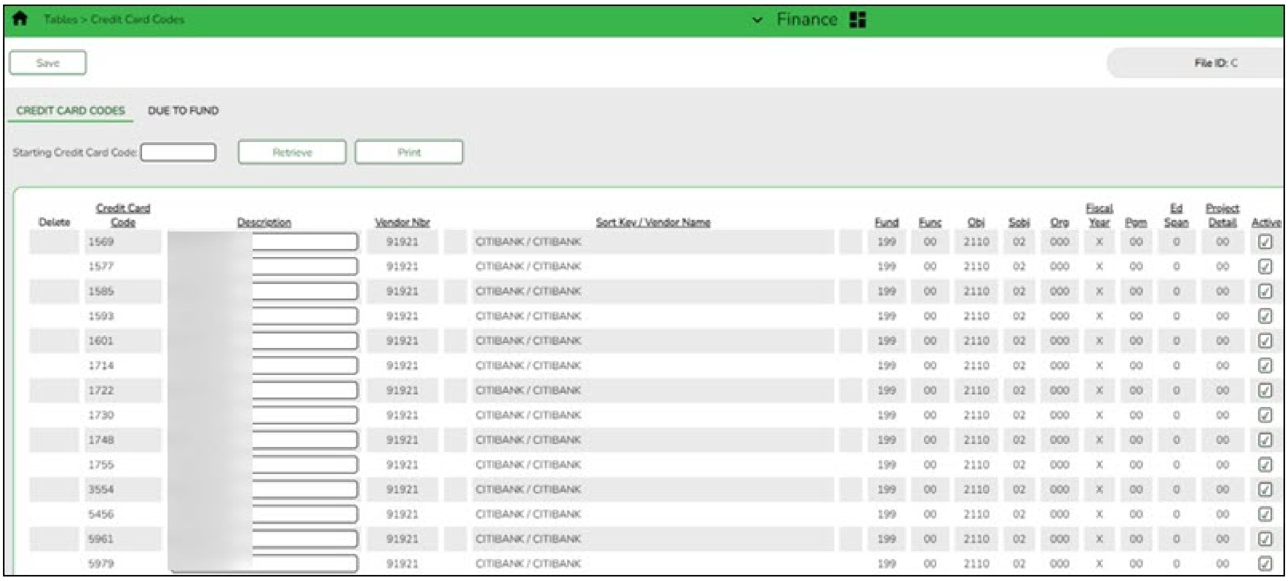
1. Set up credit card codes.

   ### Set up credit card codes

   Finance > Tables > Credit Card Codes

   Establish a list of credit card codes to be used by the local education agency (LEA). The credit card code table is necessary to complete credit card functions in Finance, Purchasing, and District Administration.

   Multiple credit cards can be set up for a credit card company. The account code must be a liability account (2XXX). A different account code can be used for each credit card to make it easier to verify transactions if the credit card statement does not reconcile to the transactions in ASCENDER. This account should be different from previously used liability accounts.



Delete	Credit Card Code	Description	Vendor Nbr	Sort Key / Vendor Name	Fund	Func	Obj	Sobj	Org	Fiscal Year	Pgm	Ed Span	Project Detail	Active
	1569	[redacted]	91921	CITIBANK / CITIBANK	199	00	2110	02	000	X	00	0	00	☑
	1577	[redacted]	91921	CITIBANK / CITIBANK	199	00	2110	02	000	X	00	0	00	☑

Notes:

- Credit card codes can be assigned to individual users on the District Administration > Maintenance > User Profiles > Purchasing Credit Cards tab.
- All credit card account code components must exist on the **Finance > Tables > Account Codes** page.
- The contra account is the credit card account from the credit card table even though it is different from the purchasing fund. This means that due to/due from accounts will be created to complete the accounting transactions.

❑ Click **+Add** to add a row.

Credit Card Code	Type a unique user-defined credit card code. The field can be a maximum of six alphanumeric characters. It is helpful to use the last 4 digits of the credit card.
Description	Type a user-defined credit card description. The field can be a maximum of 30 alphanumeric characters. It is helpful to use the name of the credit card.
Vendor Nbr	Type an active vendor number, if known. As you type the data, a drop-down list of corresponding data is displayed. Select a vendor number. The vendor number must exist on the Maintenance > Vendor Information page. The **Vendor Name** field is automatically populated with the vendor name. If the vendor number is not known, click ⋮. The Vendors directory is displayed. **Note**: The vendor number represents the credit card company (e.g., Bank of America).

Vendor Name	Type the vendor name, if known. As you type the data, a drop-down list of corresponding data is displayed. Select a vendor name. Only existing active vendors are displayed in the drop-down list. The **Vendor Number** field is automatically populated with the vendor number. If the vendor name is not known, click ⋮. The Vendors directory is displayed. **Note**: The vendor name represents the credit card company (e.g., Bank of America).
Account Code	Type the 20-digit account code of the payable account. The object code must be a class 2XXX account. All account code components must exist on the Finance > Tables > Account Code page. **Note**: You can use one account for all credit cards or set up a separate account for each credit card. The account code is divided into the following components: **Fund** **Function** **Object** **Sub-Object** **Organization** **Fiscal Year** - This field is display only and defaults to X indicating that the current fiscal year for the account code offset is used when creating credit card transactions. You can verify the fiscal year on the Tables > District Finance Options page. **Program Intent** **Educational Span** **Project Detail**
Active	Select to allow the use of the credit card code in Purchasing. The field is selected by default; however, you can clear the field to restrict the use of the credit card code in Purchasing.

☐ Click **Save**.

2. (Optional) Assign credit card codes to users.

(Optional) Assign credit card codes to users

District Administration > Maintenance > User Profiles > Purchasing Credit

Assign specific credit card codes to individual requisition users. If users will not be selecting a credit card code when creating and submitting a requisition, then credit card codes do not need to be assigned to users. The business office can select a credit card code on the PO at the time the payable transaction is entered in Finance.

If a specific credit card code is assigned to a user, the user can select from their assigned list of active credit card codes in the **Credit Card Code** drop-down field when entering a requisition on the Purchasing > Maintenance > Create/Modify Requisition and Create/Modify Contract Requisition pages in Purchasing.

🗑	1577	[redacted]	☑
🗑	1585	[redacted]	☑

☐ Click **+Add** to add a row. The Credit Card Directory is displayed.

- Select one or more credit card codes to assign to the selected user. Only credit card codes that exist on the Finance > Tables > Credit Card Codes tab are displayed.
- Type data in the **Search** field to narrow the list of credit card codes displayed in the list.
- Click **OK** to continue and return to the Purchasing Credit Cards tab.
- Click **Cancel** to return to the Purchasing Credit Cards tab without making a selection.

Field	**Description**
Credit Card Code	The user-defined credit card code is displayed.
Description	The user-defined credit card code description is displayed.
Active	Indicates the credit card code status.

☐ Click **Save**.

3. Create credit card transactions.

Create credit card transactions

After the above steps are completed, you can use one of the following three methods to create credit card transactions.

1. Create a requisition in Purchasing

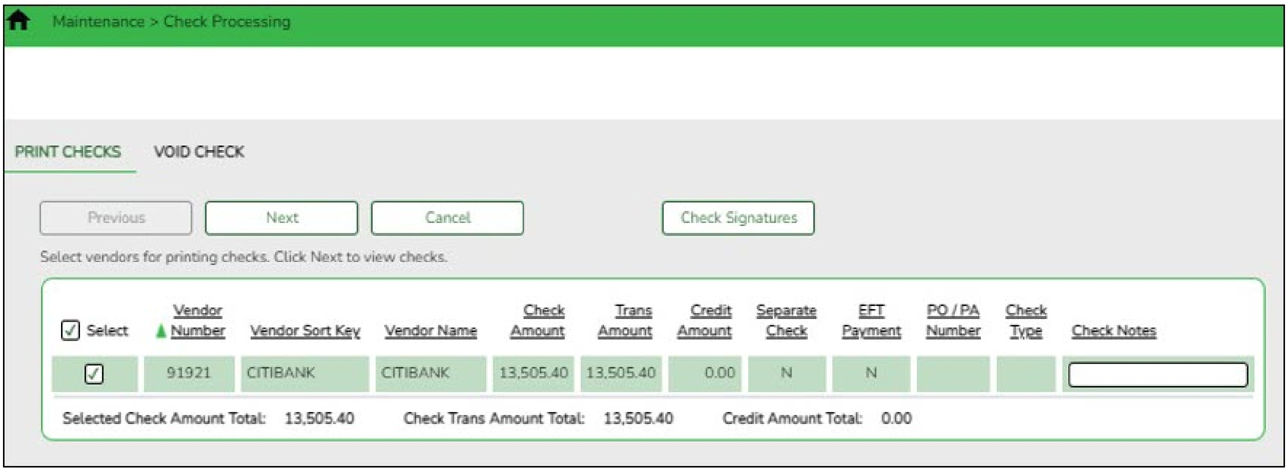
It is helpful for tracking purposes to enter the statement date in the **Invoice Date** field and the statement month as the **Invoice Number**.

7. Process payment to the credit card company.

Process payment to the credit card company

Finance > Maintenance > Check Processing > Print Checks

Process the payment to the credit card company.



Select vendors for printing checks. Click Next to view checks.

☑ Select	Vendor Number	Vendor Sort Key	Vendor Name	Check Amount	Trans Amount	Credit Amount	Separate Check	EFT Payment	PO / PA Number	Check Type	Check Notes
☑	91921	CITIBANK	CITIBANK	13,505.40	13,505.40	0.00	N	N			

Selected Check Amount Total: 13,505.40 Check Trans Amount Total: 13,505.40 Credit Amount Total: 0.00

The transaction for the check to be issued to the credit card company is displayed.

To post check:

199-00-2110-00-000-200000	Debit	
199-00-1110-00-000-200000		Credit

During the reconciliation process in the next month, the payment transaction(s) to the credit card company will be displayed on the Finance > Maintenance > Credit Card > Reconciliation tab.

8. Generate the FIN1950 - Credit Card Payment Listing.
