# ASCENDER - End-of-Year (EOY) Payroll Verification

**Created:** 05/31/2018**Reviewed:** 06/07/2024**Revised:**

The purpose of this document is to guide you through important end-of-year payroll verifications. Review each step and address it as needed. The verification steps listed in this document should be completed prior to performing the August Accruals process. If the August Accruals process is applicable to your LEA, proceed to the [August Accruals](#) guide after verifying this data.

If a step does not apply to your LEA or specific situation, proceed to the next step.

This document assumes that you are familiar with the basic features of the ASCENDER Business System and have reviewed the [ASCENDER Business Overview guide](#).

Some of the images and/or examples provided in this document are for informational purposes only and may not completely represent your LEA's process.

## Before You Begin

Review the following information and/or complete the following steps before you begin the End-of-Year (EOY) Payroll Verification process.

- ☐ Review the [EOY Processing Flowchart](#).

## EOY Payroll Verification Process

Please note that for this process, all actions will be completed within the current fiscal year (e.g., 5) or school year (e.g., 2024-2025 = 2025).

1. [Verify payroll is complete](#).

## Verify payroll is complete

### Log on to the current year payroll frequency for each frequency used.

- Ensure that the current school year payroll (final August payroll and August supplemental) is processed and interfaced to Finance prior to performing the August accrual process.
- Do not use the same date for the August payroll and the August accrual posting. **It is recommended** to use 8-31-20XX for the accrual posting date.
- For August TRS-related tasks, review the [August TRS Reporting Process](#) document.
- Print, post, and interface all deduction liability checks.
- Post and interface all transfer transactions on the **Payroll > Utilities > Transfer Transaction Processing** page.
- Ensure that the termination dates and reasons are updated on the [Personnel > Maintenance > Employment Info](#) tab for all employees who are no longer with the LEA.
- For applicable employees, be sure to update responsibility records and auxiliary roles with an end date.

**CAUTION:** If not yet completed, extract teacher service records for all employees.

**Note:** If service records were not extracted before moving 11- and 12-month employees from NYR payroll to CYR, it may be necessary to manually update data such as contract begin and end dates, etc.

### 2. [\(For LEAs that accrue monthly\) Balance accruals in Finance and Payroll.](#)

#### **(For LEAs that accrue monthly) Balance accruals in Finance and Payroll**

If your LEA accrues monthly, complete the following steps to verify the accurate posting of monthly accruals in both Finance and Payroll. It is critical that both areas agree to ensure accurate reporting of federal funds.

**It is recommended** to balance accruals monthly to help identify and correct any errors. Use the [Payroll > Utilities > Payroll Accrual Variance Extract > Extract](#) to assist you in this process.

Assuming that only your 10-month employees accrue, the easiest time to complete accrual balancing is after completing the August payroll but before completing the August accruals. At this time, the amounts displayed on the School Year to Date Report and the General Ledger Inquiry liability accounts (216X and 221X.XX) are typically all zeros. Employees who accrue monthly and receive the first payment of their new contract prior to September will have accruals in Finance and the upcoming School Year to Date Report if the **TRS Year** field is selected on the Job info tab. These amounts should be considered during the accrual balancing process. Here are five common scenarios to consider.

Scenario	Accrued amounts from the HRS3050 - School Year To Date Report	Finance General Ledger Accrued Liabilities	Action Needed
1	Zeros	Zeros	None
2	Show amounts	Zeros	Run the Zero School YTD Accruals utility in Payroll and Post to Master only
3	Zeros	Show balances	Compare to upcoming School Year to Date report  Add manual entries in Finance as needed
4	Show amounts that match GL	Show amounts that match School Year to Date	Compare to upcoming School Year to Date report  Run the Zero School YTD Accruals utility in Payroll and Post to Master and Interface to Finance if needed
5	Show amounts but DO NOT match GL	Show amounts but DO NOT match School Year to Date	Compare to upcoming School Year to Date report  Run the Zero School YTD Accruals utility in Payroll and Post to Master  Consider Interface to Finance and manual entries in Finance if needed

Review the following scenarios, choose the best fit, then follow the appropriate steps.

**Scenario 1:** The current School Year to Date Report shows zeros for accrued totals and the liability accounts in Finance are zero.

**Action:** No action required.

**Scenario 2:** The current School Year to Date Report shows amounts for accrued totals but the liability accounts in Finance are zero.

**Action:** In the current year payroll frequency, zero the amounts in Payroll. Post to Master but DO NOT Interface to Finance.

[Payroll > Utilities > Zero School YTD Accruals > Extract](#)

- ☐ Verify the **School Year** field and click **Retrieve**.
- ☐ In the **JV Number** field, type ZEROAC.
- ☐ Verify that the **File ID** field is C.
- ☐ Employees with School YTD accruals that were not cleared during payoff are displayed on the left side of the page. Use the arrows to move the employees to the right side of the page.
- ☐ Click **Run**. The Zero School YTD Accruals Extract report is displayed.

- If the process is successful, close the Extract report.
- If there were any errors encountered during the extract, the system displays the Zero School YTD Accruals Calculation Errors listing. [Review the report](#).
- **It is recommended** that you clear all errors prior to continuing with the extract process.

☐ Under **Post Options**, select **Post to Master**.

☐ Click **Post**.

**Scenario 3:** The current School Year to Date Report shows zeros for accrued totals but the liability accounts in Finance have balances.

**Action:** Generate the School Year to Date Report for the upcoming school year.

- If these amounts match Finance, no action needed.
- If these amounts do not match in Finance, enter a JV on the Finance > Postings >

Journal Actual tab to match the School Year to Date amounts.

Refer to the above chart to see the expenditure object that ties to each liability. For example, if the accrued FICA/Medicare liability line (object 221X.14) shows a balance of - \$158.56, you will need to debit a payroll expenditure account with an object code of 6141 for \$158.56.

**Scenario 4:** The current School Year to Date Report shows amounts for accrued totals and the liability accounts in Finance have matching amounts.

**Action:** In the current year payroll frequency, use the Payroll > Utilities > Zero School YTD Accruals utility to zero the amounts in Payroll and Interface to Finance so that both are zeroed at the same time.

Complete the same steps listed in Scenario 2 **EXCEPT** on the Post to Master/Interface to Finance tab:

**Scenario 5:** The current School Year to Date Report shows amounts for accrued totals and the liability accounts in Finance show amounts but the amounts do not match.

**Action:** Run the upcoming School YTD report and compare the totals from both School Year

to Date reports to Finance. Analyze the report to determine which accrual amounts should remain if any.

In the current year payroll frequency, use [Payroll > Utilities > Zero School YTD Accruals](#) to zero the amounts if needed.

Consider whether Interfacing to Finance will correct the liability balances in Finance.

- If yes, select **Post to Master and Interface to Finance**.
- If no and the differences will be greater, select **Post to Master**. You may need to manually enter additional JVs on the [Finance > Maintenance > Postings > Journal Actual](#) tab to reconcile any remaining differences.

Complete the same steps listed in Scenario 2 and 4 except on the Post to Master/Interface to Finance tab:

- ☐ Select **Post to Master** or **Post to Master and Interface to Finance** as needed. If you interface to Finance:

☐ For employees who **do** accrue monthly:

- Verify the accrual code, accrual rate, daily rate, and contract begin date for each employee.
- Verify that each employee that should accrue monthly has an accrual code.
- Verify that each employee with an accrual code has an accrual rate.
- Verify that the accrual rate matches the daily rate.
- Verify if each accrual code has the correct number of days employed.
- If you have two employees with the same contract begin date and one needs to accrue and the other does not, make a note to serve as a reminder that the applicable employee should be excluded from calculations during the August Accrual process.

☐ For employees who **do not** accrue monthly:

- Verify that the contract begin date and new daily rate are accurate for the new year.
- Verify that the employee **does not** have an accrual code or accrual rate.

☐ Use the [Payroll > Tables > Accrual Calendars > Accrual Calendar](#) page to verify pay dates and days worked.
