ASCENDER - Position Management: Update NYR Positions and Move Employees to CYR Payroll 1

ASCENDER - Position Management: Update NYR Positions and Move Employees to CYR Payroll

This guide provides the necessary steps to update next year positions and move 12-, 11-, and 10-month employees to the current year payroll.

This guide assumes you are familiar with the basic features of the ASCENDER Business system and have reviewed the [ASCENDER Business Overview guide](#).

12-month Employees

11-month Employees

This process moves employees who receive their first paycheck in August from next year Position Management to current year Position Management. It also updates some of the fields on the following Payroll > Maintenance > Staff Job/Pay Data and Personnel > Maintenance > Employment Info tabs in the current year payroll (see step 16 for detailed information):

- Employment Info
- Pay Info
- Job Info
- Distributions

A separate simulation will be set up for 10-month employees at a later date. This is necessary because the position in the next year PMIS reflects the current year salary information. The simulation updates the fields in the next year positions for the new school year and clears the **Accept Changes** field. The new salary information from the next year position is updated in the current year, updating both the current year PMIS and the Staff Job/Pay Data fields for the employees. If 11-month employees accrue, it is important to move them to the next year payroll in order to perform the accrual process.

Note: Depending on the LEA, it may not be necessary to set up separate simulations. If the LEA has determined next year salaries and completed all interfacing to Budget for the year, one simulation can be used when moving employees. Contact your regional ESC consultant to discuss this option.

It is important to consider how this process affects the budget. If you update 11-month positions with the new salary amount for the next school year in the next year PMIS, running the simulation

a second time at a later date for all employees gives the 11-month employees an additional increase. If you were unable to update Budget with accurate salaries for all employees prior to moving the 12-month employees, it is necessary to update Budget with multiple simulations. Reference the Interface to Budget Checklist located at the end of this document.

The following checklist assumes that the LEA has interfaced the payroll salaries to Budget using the PMIS Salary Simulation process.

1. [Verify account code fiscal years.](#)

[Position Management > Utilities > Update Fiscal Year by Fund](#)

Verify that the account code fiscal years are accurate. This tab provides a list of the fund/fiscal years that are set up in the positions. This process increments the position distribution fiscal year by 1.

Note: Since the account codes are validated against the budget, there should not be any fiscal years less than the next year. If there are, generate a user-created report to identify the positions and manually update the information.

2. [Generate a user-created report.](#)

[Position Management > Reports > User Created Reports > CYR/NYR Positions](#)

Generate a PMIS User Created Report to verify that the **Increase Eligible** field is selected for applicable positions. It is possible that the field is not selected for new LEA employees from last year.

TIP: For 10- and 11-month employees, **it is recommended** to verify the **Nbr Remain Payments** field prior to calculating salaries.

Select the following fields on the user-created report:

- **First Name**
- **Last Name**
- **Position Nbr**
- **Billet Nbr**
- **Position Type**
- **Increase Elig**
- **Nbr Remain Payments**

First Name Middle Name Last Name Generation

Click **Create Report**. The requested report is displayed. Use the sort/filter functionality to group the applicable data.

Note: Only positions with the **Increase Elig** field set to Y will receive a salary increase. The number of remaining payments reflected on this report is the number of annual payments and the number of remaining payments for the employee on the [Payroll > Maintenance > Staff Job/Pay Data > Job Info](#) tab. Perform any position corrections prior to continuing the process.

3. [Identify the employees to be moved to the current year payroll.](#)

Log on to the current year.

[Payroll > Reports > User Created Reports](#)

Generate a user-created report to identify the employees who begin their new contract in August. It is possible that the employees are inactive in the current year, be sure that the **Active Employees Only** field is not selected.

The screenshot shows the 'User Created Reports' configuration page for Payroll. At the top, there are buttons for 'Save', 'Create Report', 'Delete', and 'Reset', along with 'Year: C' and 'Frequency: G' dropdowns. The 'Report Template' section includes a text input field, a 'Public' checkbox, and 'Retrieve' and 'Directory' buttons. The 'Report Title' section has a text input field. The 'Employee Nbr' section includes a text input field and an 'Active Employees Only' checkbox. The 'Employee Demographic' section contains a grid of checkboxes for various fields: Employee Nbr (checked), Texas Unique Staff ID, Name Prefix, First Name (checked), Middle Name, Last Name (checked), Generation, Sex, DOB, Staff ID/SSN, Address Number, Street/P.O. Box, Apt, City, State, Zip, Zip+4, Addr Country, Maiden Name, Former Prefix, Former First Name, Former Middle Name, Former Last Name, Former Generation, Driver's License, DL State, DL Expir Date, Phone Area Cd, Phone Nbr, Bus Phone Area, Bus Phone Nbr, Bus Ext, Cell Area Cd, Cell Phone Nbr, Local Restriction, Public Restriction, Last Change Date, Citizenship, Marital Stat, Other Language, Local Use 1, Local Use 2, Email, Emer Contact, Relationship, Emer Notes, Emer Area Cd, Emer Phone Nbr, Emer Ext, Employee Notes, Hispanic/Latino, American Indian, Asian, African American, Pacific Islander, and White. The 'Job Information' section includes checkboxes for Job Code, Job Descr, Primary Job, Prim Campus, Campus Name, Nbr Mon Contr, Yrs of Job Exper, Percent Assigned, Department, Pay Type, Calendar Code, Contract Begin Dt, Contract End Dt, Yrs in Career Ladder, Payoff Date (checked), Nbr Days Employed, Nbr Days in Contract, Local Contract Days, Nbr of Annual Pymts, Remaining Pymts, Wkly Hrs Sched, Pay Grade, Pay Step, Pay Schedule, State Step, Contract Total, Contract Balance, Wholly Sep Amt, Daily Rate, Hrly Rate, Pay Rate, Base Annual, Accrual Cd, Accrual Rate, Reg Hrs Worked, Overtime Eligible, Overtime Rate, Hours/Day, TRS Position Cd, State Minimum Salary, TRS Year, Retiree Exception, Workers' Comp Cd, Workers' Comp Annual, Workers' Comp Remain, Exempt Status, Incr Pay Step, and Vacant Position. The 'Distribution' section includes checkboxes for Job Cd, Fund, Contrib Acct Flg, Acct Type, Function, Perf Pay, Extra Duty Cd, Object, Workers' Comp, Sub Object, Pay Acty, Organization, Acct Amt, Fiscal Year, Acct Pct, Program Intent, TRS Grant Cd, Ed Span, Expense 373, and Project Detail. The 'Deductions' section includes checkboxes for Deduction Cd, Employee Amt, Employer Amt, Remain Pymts, Refund, Cafe 125, Emplr Contrib Factor, and TEA Contrib Factor.

Prepare a list of new hires as a supplement to this list. Sort by the **Payoff Date** to verify that all employees with a July payoff date have the same date. For example, it is possible that an employee has a payoff date that is a day before or after the actual July payoff date.

Use the current year payroll [Payroll > Maintenance > Staff Job/Pay Data > Job Info](#) tab to make corrections as needed.

Generate a user-created report again to verify that all of the data is accurate. Filter the report using the LEA's July payoff date (YYYYMMDD).

Print or save the report for verification purposes.

4. Create a salary simulation.

Log on to the next year.

Prior to setting up and performing salary simulations, review the [Position Management: Salary Simulations Overview](#) document for a description of the Salary Simulation pages and samples of the available simulation reports.

[Position Management > Utilities > Salary Simulation > Simulation Options](#)

☐ Complete the following:

- **(Recommended)** In the **Include Vacant Supplement Positions** field, select *No*.
- In the **Update Forecast** field, select *No*.
- In the **Update Budget** field, select *N - Do Not Update Budget*.
- Include all first pay date codes for 11-month employees who receive their first paycheck in August. Include all local/annual, hourly/daily, midpoint (if applicable), and extra duty tables.
- If increases are not provided to 11-month employees in August, do not include an increase in the salary tables. If increases are provided 11-month employees in August, update the salary tables with the increase data.
- If the LEA wants to interface the simulation to Budget, add the deductions with the annual amount for the Employer Contribution.

☐ Click **Save**.

☐ Click **Execute**. Review the Simulation Process Error Listing and correct any errors prior to continuing the process.

- Generate the simulation reports and review all salaries.
- Review the user-created report to confirm that all 11-month employees or positions are included in the simulation. The reflected salaries are the amounts that are used to pay employees in the current year payroll.

If necessary, continue making corrections and running the simulation until all of the salary amounts are correct.

- Run the final simulation. This process updates the state step, pay step, and salary amount in the next year PMIS for all 11-month positions and clears the **Accept Changes** field.
 - In the **Update Forecast** field, select Yes.
 - Click **Save**.
 - Generate and save the reports.
 - Click **Process** to process the simulation. [Create a backup](#).

5. (If applicable) [Move employees to next year payroll](#).

Log on to the next year.

[Position Management > Utilities > Move Forecast to NY Payroll](#)

If your LEA uses ASCENDER Grade Reporting and/or accrues, 11-month employees may need to be moved to next year payroll.

□ Complete the following:

- In the **Select Pay Frequency** field, select the frequency that represents the LEA's next year payroll.
- Select **Update TRS Year Flag**.
- In the **Select First Pay Date Codes or blank for ALL**, select the first pay date codes that represent the 11-month employees.
- Select **Include Extra Duty** pay.

The additional fields can be used to move select employees and positions. V CV Click **Execute**. Generate the Move Forecast Process Error Listing and correct any errors prior to continuing the process.

Utilities > Move Forecast to NYR Payroll

Process Cancel

Processing Reports

Select	Report Name
<input checked="" type="checkbox"/>	Move Forecast Process Error Listing
<input type="checkbox"/>	Update NYR Payroll From Forecast by Employee Name
<input type="checkbox"/>	Update NYR Payroll From Forecast by Campus ID

Generate Reports Select All Unselect All

After completing any corrections, generate and save all of the processing reports.

- Click **Process** to process the final simulation.

Contact your regional ESC consultant if you need assistance.

- Copy school calendars from next year to current year payroll.

Log on to the next year.

Payroll > Next Year > Copy NYR Tables to CYR > Copy Next Year Tables

Next Year > Copy NYR Tables to CYR

COPY NEXT YEAR TABLES

Accrual Calendar		<input type="checkbox"/>	⋮
Extra Duty Pay		<input type="checkbox"/>	⋮
Hourly / Daily Salary		<input type="checkbox"/>	⋮
Job Code		<input type="checkbox"/>	⋮
Local Annual Salary		<input type="checkbox"/>	⋮
Midpoint Salary		<input type="checkbox"/>	⋮
School Calendar	CO,DC,PC,SP	<input checked="" type="checkbox"/>	⋮
State Minimum Salary		<input type="checkbox"/>	⋮
Substitute Salary		<input type="checkbox"/>	⋮
Workers' Compensation Rates		<input type="checkbox"/>	⋮

Execute Select All Tables

- In the **School Calendar** field, select only the 11-month employee calendars.

TIP: The calendar code is displayed in the first pay date code on the simulation (e.g., J40 includes calendar code 40)

Click **Execute**.

Note: If changes were made to any of the next year payroll tables (extra duty pay, hourly/daily salary, job code, local annual salary, etc.), copy the tables from the next year payroll to the current year payroll.

7. [Generate a user-created report.](#)

Log on to the current year.

[Payroll > Reports > User Created Reports](#)

Generate a user-created report with the **Hrs Per Day** field selected. This field is overwritten when positions are moved from the next year to the current year.

8. [Move forecast to current year position and payroll.](#)

Log on to the next year.

[Position Management > Utilities > Move Forecast to CYR Position and Payroll](#)

This process is used to move payroll and position forecast records to the current year PMIS with the same information that is set up in the next year PMIS records.

It also updates fields on the following Maintenance tabs: Employment Info, Pay Info, Job Info, Distribution

The **Accept Changes** field must be cleared when moving position records from forecast to current; otherwise, position records cannot be moved. The **Accept Changes** field is cleared after running a simulation with the **Update Forecast** field set to Yes. Similarly, you cannot run a simulation for positions without the **Accept Changes** field selected.

Utilities > Move Forecast to CYR Position and Payroll Position Management

Blank for ALL not processed when Positions/Billets selected)

Select Positions/Billets or blank for ALL:

Select Supplement Positions or blank for ALL:
(Includes ALL billets for selected supplement positions
Blank for ALL not processed when Supplements/Billets selected)

Select Supplement Positions/Billets or blank for ALL:

Clear Job Years:

Clear Job Weekly Hours Scheduled:

- In the **Select Pay Frequency** field, select the payroll frequency to be updated. LEAs with multiple frequencies must individually process each frequency.
- Do not select **Include Vacant Supplements**.
- Do not select **Validate Accounts against General Ledger** at this time. Distribution accounts in next year PMIS reflect the fiscal year for the upcoming school year. Finance still reflects the current year for the fiscal year in the general ledger. When running this process, the error report reflects funds for employees who are included in the process. It is necessary to create the funds with the new fiscal year on the Finance > Tables > Account Codes > Fund tab. It is NOT necessary to set up codes in the Chart of Accounts.
- Select **Update TRS Year**. If an employee has this field selected but they are now a 10-month employee, the **TRS Year** field is cleared when the 10-month move is processed.
- Select **Update Workers' Comp Annual and Remaining Payments** if the LEA expenses worker's compensation in ASCENDER. The system references the **# of months in Contract** and makes the **WC Ann Pymts** and **WC Remaining Pymts** match this field.
- Leave the **Additional Workers' Comp Payments** field blank. It is not necessary to populate this field even if the LEA expenses workers' compensation in ASCENDER.
- In the **Select a Stat Minimum Salary Table (CYR/NYR)** field, select the year (current or next) that contains the tables with the updated amounts. If it is a legislative year and the state minimum amounts are updated.
- In the **First Pay Date Codes or blank for ALL** field, select only the first pay date codes for employees who receive their first paycheck in July.
- Select **Include Extra Duty** to include the supplement pay with the regular pay.

Click **Execute** to execute the process. The following reports are available:

- o Move Forecast Process Error Listing [Important errors](#)

Error Message	Description
Warning: The employee has Contract Balance amounts not equal to zero for current jobs.	The employee has not been paid off by payroll.
Failure: Position Accept Changes Flag set to Y	The position will not be moved to the current/payroll.
Failure: Emp Nbr must have one position declared as primary.	<p>The error does not necessarily reference the Primary Job field on the position. If an employee has a regular position and a supplement position, but there is an error that causes the primary position to fail, this message often indicates that there is only a supplement position to be moved. It is recommended to review and correct any errors that begin below this message about primary positions. After making those corrections, run the process again. This may resolve the primary job errors.</p> <p>This error also occurs when calendars have not been copied to the current year.</p>

Error Message	Description
<p>Warning: Emp Nbr has multiple supplement positions for the same job; however, one or more of the following do not match: Campus ID, Dept, TRS Status Code, FTE Units, Incr Elig, Max Paymts, FICA Elig, Unemp Elig, EEOC, Workers Comp, Supplement Extra Days or Category Cd. The values from lowest Supplement Position Number/Billet may be used if new rows are inserted for the Pay Info and Job Info tabs.</p>	<p>This error indicates that the fields on the Payroll > Tables > Salaries > Extra Duty tab do not match those selected on a supplemental position.</p> <p>Use the Position Management > Inquiry > PMIS Staff Inquiry to determine the Position Number and Billet for any supplemental positions for the employee. Then, use the Position Management > Maintenance > PMIS Supplement Modify page to retrieve the position and billet and compare the fields on the position to the Payroll > Tables > Salary > Extra Duty tab for the extra duty number on the supplement. For example, in some cases the W/C code on the position may not match the W/C code on the table. Or, the Exp 373 field on the position may be selected, but the Exp 373 on the table for that extra duty code may not be selected. Either the table or the position needs to be updated so that they both match. If changes are made to the Extra Duty table, it is necessary to move the table to the current year payroll before proceeding.</p>

Click **Generate Reports**. The selected reports are displayed. [Review the report](#).

Click **Continue** to view the next report. Or, click **Return** to return to the report selection page.

After reviewing all of the reports and correcting all errors, return to the report selection page and click **Process** to move the forecast records to the current year. You are prompted to create a [backup](#).

After the process is completed, the actual update is performed. If the update is successful, a message is displayed indicating that the move forecast updates were successfully processed.

Click **Cancel** to return to the Move Forecast to CYR Position and Payroll page without moving the forecast records to the current year.

If corrections are processed, repeat this step.

Generate and save each report. Compare the Update CYR Positions From Forecast report to the user-created report that was previously generated to confirm that all 12-month employees are included. The last two reports contain the same information; one is sorted by employee name and the other by campus ID. These reports reflect the existing salary in the current year payroll and the new salary, which overwrites the current year payroll amounts. Review the reports for accuracy.

9. Confirm that the CYR salaries are accurate.

Log on to the current year.

Verify the current year data to confirm that the salaries are correct. The highlighted fields are updated:

10. [Mass update fiscal year.](#)

Log on to the current year.

[Payroll > Utilities > Mass Update > Employee](#)

Skip this step if your LEA has a 7/1 fiscal year.

Mass update the fiscal year to the next school year for all employees.

Select **Fiscal Year** and type the next year fiscal year. Before processing, stop to consider if the LEA uses other fiscal years in the account codes for employees. If the entered year is not the only used fiscal year, additional parameters may need to be selected.

Contact your regional ESC consultant if you need assistance.

Mass update the current year **Wkly Hrs Sched** and **Hrs Per Day** fields.

- Select **Wkly Hrs Sched** and type the number of hours displayed for the majority of employees. Any exceptions can be manually updated in the current year payroll. Reference the previously generated user-created report.
- For LEAs that use the hours per day functionality in the current year payroll, select the **Hrs Per Day** field and type the number of hours per day for the majority of employees.
- Use the parameters to select specific groups of employees for the update.

11. [Generate the HRS6000 Account Code Comparison Report.](#)

[Payroll > Reports > Payroll Information Reports > HRS6000 - Account Code Comparison](#)

This report compares the account code on the employee’s master distribution record and compares it to the Chart of Accounts in Finance file ID C.

Complete the following parameters:

Parameter Description	Value
Sort by Alpha (A), Pay Campus (C), Primary Campus (P)	A
Include Reports (Select From List)	NY
From Date (MMDDYYYY)	080120XX
To Date (MMDDYYYY)	083120XX
Pay Status Active (A), Inactive (I), or blank for ALL	A
Pay Type 1-4, or blank for ALL	
Select Pay Campus(es), or blank for ALL	
Select Primary Campus(es), or blank for ALL	
Select Employee(s), or blank for ALL	

If the LEA has multiple pay frequencies, generate the report for each frequency. The generated report should be blank. If any account codes are listed, determine if the account codes need to be added to the Chart of Accounts in Finance or if the employee distribution record needs to be modified.

12. [Generate the HRS6050 Contract Balance Variance Report.](#)

[Payroll > Reports > Payroll Information Reports > HRS6050 - Contract Balance Variance Report](#)

This report looks at the pay rate for each employee and multiplies it by the number of remaining payments, and compares that amount to the Contract Balance on the Job Info tab. If there is a variance of more than a few pennies, perform manual calculations to determine if any corrections are needed.

Generate the report for pay type 1 and again for pay type 2.

Complete the following parameters:

Date Run:		Contract Balance Variance Report					Program: HRS6050	
Cnty Dist:		ISD					Page: 1 of 2	
Variance Threshold: 0.10							Frequency: E	
Emp Nbr	Employee Name	Job Cd	Pay Rate	Remain Pymts	Computed Bal	Actual Bal	Variance	
000018	AGUILAR, AIDA	1602	11.32	24	271.68	16,478.00	16,206.32	
000149	A'HOURLY JR, ONLY M	1504	14.38	24	345.12	29,910.00	29,564.88

13. [Enter new hire data.](#)

Log on to the current year.

Use the Staff Job/Pay Data pages to enter new hire data. The HRS1550 - New Hire Report is helpful to identify these employees.

When new hires are entered in the next year Position Management and moved to the current year payroll, only the fields related to the position are populated.

Manually update the following:

[Personnel](#) > [Maintenance](#) > [Employment Info](#)

- **Employee Status**
- **Highest Degree**
- **Percent Day Employed**
- **Original Employment Date** or **Latest Re-Employment Date**
- **Retirement Date** (if applicable)
- **Years of Experience**
- **Employment Type**

[Payroll](#) > [Maintenance](#) > [Staff Job/Pay Data](#) > [Pay Info](#)

- **Pay Campus**
- **FICA Eligibility**
- **W-4 Marital Status**
- **Nbr of Exemptions**
- **Bank Information**

Complete the [Payroll](#) > [Maintenance](#) > [Staff Job/Pay Data](#) > [Deductions](#) tab.

[Payroll](#) > [Maintenance](#) > [Staff Job/Pay Data](#) > [Leave Balance](#) - This tab can be updated in September using the First Pay Date of the School Year instructions.

14. [Run payroll calculations.](#)

Log on to the current year.

[Payroll](#) > [Payroll Processing](#) > [Run Payroll](#)

Run payroll calculations to verify any errors.

10-month Employees
