ASCENDER - Vendor EFT Process

The purpose of this document is to guide you through the steps in Finance to process payments as electronic funds transfer (EFT) to vendors doing business with the local education agency (LEA).

This document assumes that you are familiar with the basic features of the ASCENDER Business System and have reviewed the [ASCENDER Business Overview guide](#).

Some of the images and/or examples provided in this document are for informational purposes only and may not completely represent your LEA's process.

[Vendor EFT Process Quick Checklist](#) (prints separately) - This is a one-page quick checklist of the following steps.

Vendor EFT Process

1. [Add/update bank codes.](#)

Add/Update Bank Codes

[Finance > Tables > Bank Codes > Bank Codes](#)

Verify the appropriate bank codes exist. If not, add the applicable codes. A bank code is required for each bank participating in electronic funds transfer (EFT) payments. In order for a vendor to receive an EFT payment, you must indicate a specific bank for the vendor.

You can add or edit information in the bank table at any time. The bank name, address, telephone, and contact person information can be updated by accessing the bank code, changing the data, and saving the changes. If the bank code is incorrect, you must delete the incorrect code and then add the new code.

Note: Multiple vendors may use the same bank.

Click **+Add** to add a new row.

| | |
|---------------------|--|
| Bank Code | Type a unique user-defined bank code. If the information has already been entered for this code, it is displayed when the code is entered. The field must be three characters. |
| Bank Name | Type the bank name. |
| Route Number | Type the nine-digit routing number to use for the electronic funds transfer. |
| Street Nbr | Type the street address number if used. |
| Street Name | Type the street name. |
| City | Type the name of the city where the bank is located. |
| State | Click ▼ to select the two-character code of the state where the bank is located. |
| Zip | Type the five-digit zip code for the bank's location. |
| Zip 4 | Type the four-digit zip code if used. |
| Contact | Type the name of the contact person at the bank who is responsible for processing electronic funds transfers. |

Click **Save**.

TIP: If you are creating a vendor record for an employee who is also participating in EFT payments in Payroll, you can use the **Copy from Payroll** functionality on the Vendor Miscellaneous tab and complete the vendor's bank information.

It is recommended that you print your bank details from the [Payroll > Tables > Bank Codes > EFT](#) tab and use it as a reference when adding your LEA's bank details on the EFT tab in Step 3. Use caution when typing your **Route** number to ensure accuracy.

2. Add/update EFT information.

Add/Update EFT Information

Finance > Tables > Bank Codes > EFT

Create the LEA's EFT record to be used when sending vendor EFT payments to their bank. This function is accomplished by creating an EFT file during a payment run. This file is then given to the local education agency's (LEA) bank to be transmitted to an automatic clearinghouse.

Enter the EFT data for the LEA's EFT bank account to be used for Finance checks. Reference the Payroll > Tables > Bank Codes > EFT tab if using the same EFT bank.

| Field | Description |
|------------------------------|--|
| Immediate Destination | <p>Type the nine-digit Federal Reserve routing number used to identify the receiving point. This number is provided by the individual bank. The field length is ten digits, since some banks require a leading space before the nine-digit routing number. If you type the nine-digit routing number and later need to add a space before the number, you must do the following:</p> <p>Change the field to a random number (e.g., 123456789).</p> <p>Click Save.</p> <p>Add a leading space with the appropriate nine-digit routing number following the space (e.g., [space]987654321).</p> <p>Click Save again.</p> <p>Only follows these steps when you need to add a space before a number that was previously saved.</p> |
| Company ID Type 5 | Type the 10-digit code used to identify the LEA. This is either the employer identification number with a 0 added on the end of the number or a leading 1, depending on the vendor's bank. |

| Field | Description |
|--------------------------------|--|
| Originating DFI ID Code | Type the eight-digit code used to identify the originating DFI. This is the LEA's bank routing number without the last digit. |
| Company ID Type 8 | Type the 10-digit code used to identify the LEA. This is either the employer identification number with a 0 added on the end of the number or a leading 1, depending on the vendor's bank. |
| Employer Offset Account | Type the offset account number used to debit the LEA's bank account. This number is the LEA's payroll bank account number and will be included in the EFT file. Leave blank to exclude debits from the EFT file. |
| Immediate Origin | Type the 10-digit code used to identify the EFT sending point. There is a leading space plus the routing number for the LEA's bank. |
| Originator Status Code | <p>Type the one-digit code used to identify the originator of the EFT tape. Valid codes for this field include the following:</p> <p>1 - Originator is an ACH association member or originating DFI, subject to ACH rules</p> <p>2 - Originator is a federal government entity or agency not subject to ACH rules</p> <p>3 - Originator is not an ACH member or originating DFI, but subject to ACH rules</p> |
| Bank Code | Click  to select the assigned code for the LEA's bank. |
| ACH Service Class Code | <p>Click  to select one of the following codes:</p> <p>200 - Mixed debits and credits - The EFT file includes 5200 and 8200 records indicating that the file could contain debit and credit amounts.</p> <p>220 - Credits only - The EFT file includes 5220 and 8220 records indicating that the file only contains credit amounts.</p> |

Click **Save**.

3. [Add/update bank information.](#)

Add/update Vendor Bank Information

[Finance > Maintenance > Vendor Information > Vendor Miscellaneous](#)

Add bank information for each vendor (or employee) doing business with the local education agency (LEA). If a vendor has bank information on file, the vendor can receive electronic payments via an electronic funds transfer (EFT). This bank information is also used for employee travel reimbursements.

The screenshot shows the 'Maintenance > Vendor Information' screen. At the top, there are buttons for Save, Retrieve, Add, Delete, and Directory. Below that, tabs for 'VENDOR NAME / ADDRESS' and 'VENDOR MISCELLANEOUS' are visible. The 'VENDOR MISCELLANEOUS' tab is active, showing 'Bank Information'. A table for 'Bank' has a single row selected: '555 - Big Bank' (Bank), '9999996' (Bank Acct Nbr), '2 Checking account' (Bank Acct Type), and an empty PreNote field. Below this, there are sections for 'Category Information' and 'HUB Information', each with their own tables and search/filter buttons.

Under **Bank Information**, complete the bank information for each vendor record:

| | |
|-----------------------|--|
| Bank | Begin typing a bank code or name. As you type the data, a drop-down list of corresponding data is displayed. The bank information must exist on the Finance > Tables > Bank Codes tab. Select a bank code. If the bank code or name is not known, click to select a bank from the Banks lookup or press the SPACEBAR to view a list of banks. |
| Bank Acct Nbr | Type the corresponding bank account number for the selected bank. |
| Bank Acct Type | Select the account type for the selected bank and bank account number. <i>2 Checking account</i> <i>3 Savings account</i> |
| PreNote | Select to generate a prenote to the bank. |

Click **Save**.

4. [Add/update vendor EFT email address.](#)

Add/Update Vendor EFT Email Address

[Finance > Maintenance > Vendor Information > Vendor Name/Address](#)

Add a new vendor record or update an existing record with the vendor's EFT email address. The EFT email is required for all vendors participating in electronic funds transfer (EFT) payments.

Vendor: 37301 :

VENDOR NAME / ADDRESS **VENDOR MISCELLANEOUS**

Vendor Number: 37301 Vendor Name: Doing Business As: Last Trans: 04-12-2018
 Active/Inactive: Active Vendor Sort Key: Fed Code (SBIR): Required Review in Req: Contract Eligible:

Numbers
 Phone:
 Fax: -
 Area Cd: Number: Ext:

Links
 E-mail:
 Internet:
EFT E-mail:

Under **Links**, add or update the EFT email address:

| | |
|-------------------|--|
| EFT E-mail | Type the vendor's email address to send the vendor EFT payment information. The field can be a maximum of 45 characters. |
| EFT E-Mail | Click to open a new email message using your default email provider. |

Note: The vendor's EFT email address is required prior to adding the vendor's bank information on the Vendor Miscellaneous page.

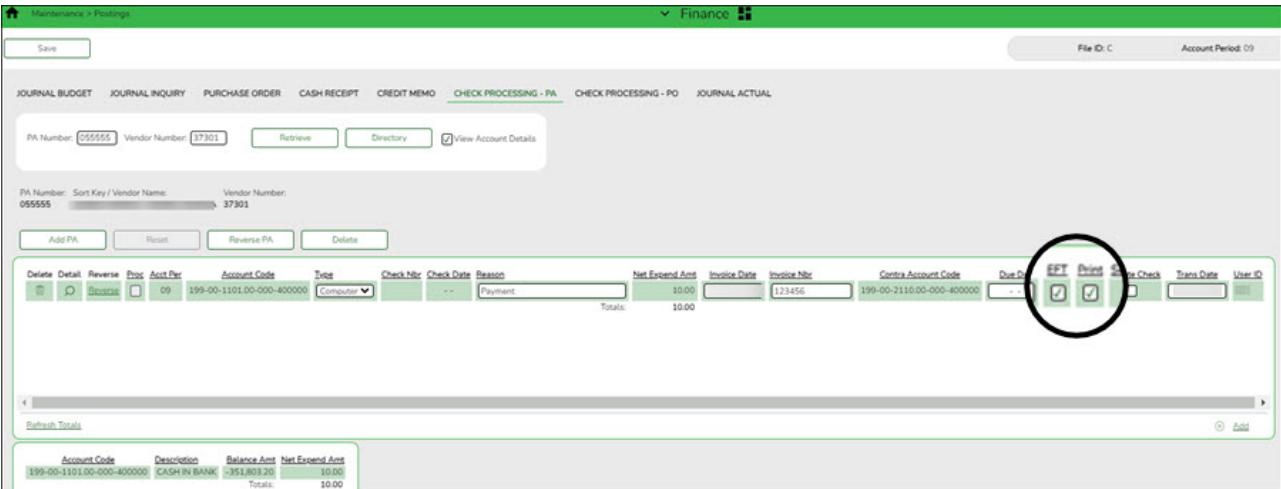

Click **Save**.

5. Post transaction(s).

Post Transaction(s)

[Finance > Maintenance > Postings > Check Processing - PA OR PO](#)

Create a transaction for an existing or new purchase authorization (PA) or purchase order (PO). By default, the **EFT** checkbox is automatically selected if the vendor retrieved has bank information on the [Finance > Maintenance > Vendor Information > Vendor Miscellaneous](#) tab and an EFT email address on the [Finance > Maintenance > Vendor Information > Vendor Name/Address](#) tab. If a check is necessary, unselect **EFT**.

The screenshot shows the 'Maintenance > Postings' screen. At the top, there are tabs for JOURNAL BUDGET, JOURNAL INQUIRY, PURCHASE ORDER, CASH RECEIPT, CREDIT MEMO, CHECK PROCESSING - PA, CHECK PROCESSING - PO, and JOURNAL ACTUAL. The 'CHECK PROCESSING - PA' tab is selected. Below the tabs, there are search fields for PA Number (055555) and Vendor Number (37301), and buttons for Save, Retrieve, Directory, and View Account Details. The main area displays a list of PA entries. A specific row is highlighted with a green border. The 'Print' checkbox in the row's toolbar is circled in black. At the bottom, there is a summary table showing Account Code, Description, Balance Amt, and Net Expend Amt.

Notes:

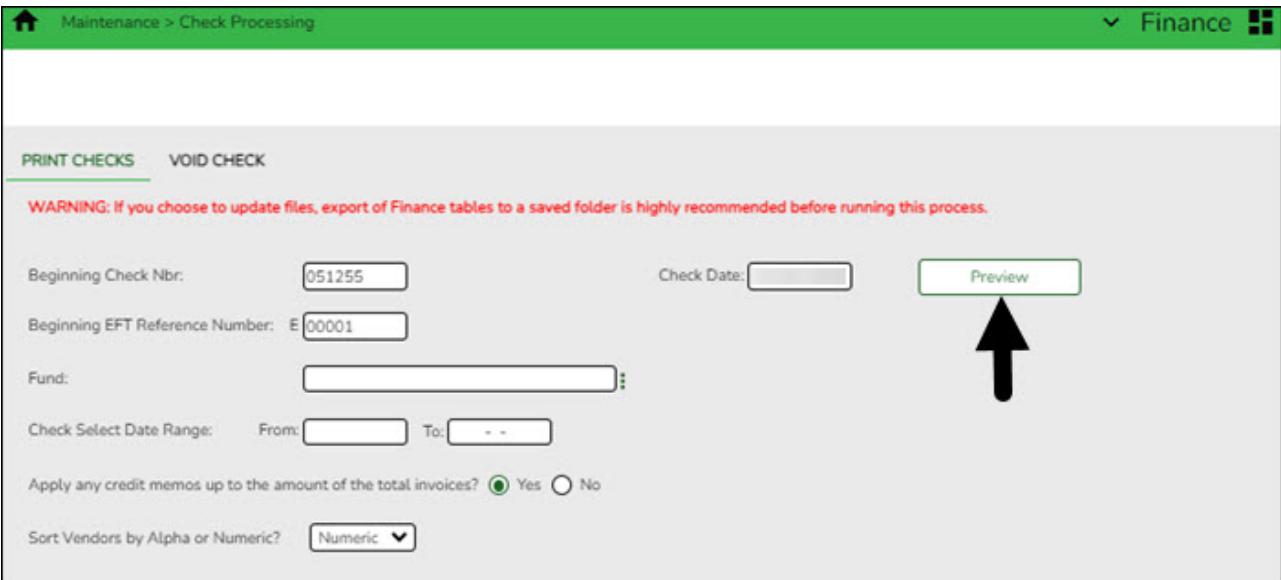

- The vendor must have bank information and an EFT email address on file to be eligible for an electronic funds transfer (EFT).
- The **EFT** checkbox is not displayed for purchase orders that were created using a credit card code.
- If **Separate Check** is selected, **EFT** is unselected. Leave **Print** selected as it allows the transactions to be included and processed during the check run.

6. Print check(s).

Print Check(s)

[Finance > Maintenance > Check Processing > Print Checks](#)

Process all applicable computer checks/EFT transactions that are ready for the check cycle.

The screenshot shows the 'Maintenance > Check Processing > Print Checks' screen. At the top, there are tabs for PRINT CHECKS and VOID CHECK. A red warning message at the top states: 'WARNING: If you choose to update files, export of Finance tables to a saved folder is highly recommended before running this process.' Below the tabs, there are input fields for Beginning Check Nbr (051255), Beginning EFT Reference Number (00001), Fund (dropdown menu), Check Select Date Range (From and To fields), and a checkbox for 'Apply any credit memos up to the amount of the total invoices?' with 'Yes' selected. At the bottom, there is a 'Sort Vendors by Alpha or Numeric?' dropdown set to 'Numeric'. A large green 'Preview' button is highlighted with a black arrow pointing to it.

- Complete the Print Checks tab. The **Beginning EFT Reference Number** defaults to 00001 for the first time that EFT transactions are processed, and then increments each EFT run.

- Click **Preview**. The Vendor Check Processing page is displayed with a list of all transactions (PO, PA, and credit memo transactions are included) to be processed. All transactions listed are selected by default and included in the totals at the bottom of the page.
- Select the top-level checkbox to select/unselect the list of transactions. Or, select individual checkboxes to only select specific transactions.

| Select | Vendor Number | Vendor Sort Key | Vendor Name | Check Amount | Trans Amount | Credit Amount | Separate Check | EFT Payment | PO / PA Number | Check Type | Check Notes |
|-------------------------------------|---------------|-----------------|-------------|--------------|--------------|---------------|----------------|-------------|----------------|------------|-------------|
| <input type="checkbox"/> | 11318 | | | 974.61 | 974.61 | 0.00 | N | N | | | |
| <input type="checkbox"/> | 21015 | | | 31,542.95 | 31,621.95 | 79.00 | N | N | | | |
| <input checked="" type="checkbox"/> | 37301 | | | 10.00 | 10.00 | 0.00 | N | Y | | | |
| <input type="checkbox"/> | 40590 | | | 9,530.22 | 9,795.43 | 265.21 | N | N | | | |

Selected Check Amount Total: 10.00 Check Trans Amount Total: 10.00 Credit Amount Total: 0.00

- If printing checks, click **Check Signatures** to select the appropriate signature(s) to be printed on the checks.

| Post | Vendor Number | Vendor Sort Key | Vendor Name | Check Number | Check Amount | Separate Check | EFT Payment | PO / PA Number | Check Type | Check Notes |
|-------------------------------------|---------------|-----------------|-------------|--------------|--------------|----------------|-------------|----------------|------------|-------------|
| <input checked="" type="checkbox"/> | 37301 | | | E00001 | 10.00 | N | Y | | | |

Selected Checks Amount Total: 0.00 EFT Amount Total: 10.00 Total Amount: 10.00

TIP: The total of the Fund Transfer will match the total of all transactions processed.

7. Create EFT file.

Create EFT File

[Finance > Maintenance > EFT Processing > Create EFT File](#)

Create the EFT file. The file is then given to the local education agency's (LEA) bank to be transmitted to an automated clearing house (ACH) as a request to electronically transfer the payment to the vendor.

The **File Type** defaults to *Finance*.

| Field | Description |
|-----------------------|---|
| Finance | When selected, all EFT checks (i.e., payments) for the selected date time stamp(s) are included in the EFT file. If multiple date time stamp records are selected, all records will be included in the same file. A list of data from the last ten check runs is displayed in the grid. |
| Effective Date | Type the effective date for the EFT file in the MM-DD-YYYY format. This is the date that the bank will transfer the funds to the vendor's bank. |

It is recommended to set the **Effective Date** to allow the bank one to two days to process the file (similar to Payroll EFT dates). You should not enter the actual day you are running the checks/EFT unless there is a special arrangement between your LEA and your LEA's bank.

The screenshot shows the 'CREATE EFT FILE' screen. At the top, there are two tabs: 'CREATE EFT FILE' (selected) and 'REVISE EFT FILE'. Below the tabs, the 'File Type' section has two radio buttons: 'Finance' (selected) and 'Pre-Note'. A text input field for 'Effective Date' is highlighted with a red box. To the right of the input field is a green 'Create EFT File' button. Below this section is a table with columns: 'Select', 'Check Date', 'Check Processing Date', 'From Check Nbr', and 'To Check Nbr'. The first row in the table has a checked 'Select' box, and the 'From Check Nbr' and 'To Check Nbr' fields are both set to 'E00001'.

- Select the appropriate check run. Notice the check number assigned will begin with an "E" for EFT.
- Click **Create EFT File** to create the EFT file. The Finance EFT Report is displayed with a list of transactions to be processed.
- Click to print the report prior to clicking **Process**.
- Click **Process** to proceed. A dialog box is displayed with a preset File name. The *Finance_EFT_MMDDYYYY.txt* file is generated with the actual EFT payments for each vendor.

| | | | | | |
|---|--------------------|--------------|--------|---|------|
| | | Process | Cancel | | |
|    | | First | ◀ | ▶ | Last |
| Date Run: | Finance EFT Report | Page: 1 of 1 | | | |
| City Dist: | ISD | File ID: C | | | |

Your EFT file is ready to be sent to your bank contact for EFTs using your LEA's preferred method of sending EFT files.

The following morning at 6:00 AM, ASCENDER will generate and send an email to the vendor's EFT email (listed on the Vendor Name/Address tab) notifying them that an EFT payment (deposit) has been issued to their bank account.
