# ASCENDER - Position Management: Perform Non-Comp Funding Changes

The purpose of this document is to guide you through the necessary steps to process non-comp funding changes if an employee is not being correctly paid or if a particular grant ends. Non-Comp Funding Changes are used to change the account codes designated to an employee without changing the position and compensation amounts. When a non-compensation funding change transaction is approved, the previous account codes are removed from the job code and the new account codes are inserted.

**Note:** Changes made on this page do not change the amounts that were previously posted to the original distribution code. A Special Adjustment is necessary to move the amounts. The purpose of this page is to simultaneously update the distribution code on the employee distribution and position distribution pages in the current year Position Management.

This document assumes you are familiar with the basic features of the ASCENDER Business system and have reviewed the [ASCENDER Business Overview guide](#).

Some of the images and/or examples provided in this document are for informational purposes only and may not completely represent your LEA's process.

After the Change In Position – Non-Compensation Funding Change Report is processed, the information is displayed on the [Payroll > Maintenance > Approve CIP Transaction](#) page, which is the final step before the employee record is updated on the **Payroll > Maintenance > Staff Job/Pay Data** page.

If the LEA has a personnel and payroll department, it is possible that the personnel department submitted the information on the Change in Position - Non-Comp Funding tab. This step allows the payroll department to review the corrected distribution information and perform one of the following actions:

- **Mark Reviewed** - If the payroll department needs additional time to review the information before approving it, enter a date in the **Date Reviewed** field and click **Mark Reviewed**. This informs the personnel department that the payroll department is still reviewing the information.
- **Approve** - If you click **Approve**, the Payroll > Maintenance > Staff Job/Pay Data > Distribution fields are updated. A message indicating that the transaction was approved is displayed.
- **Reject** - If the information is incorrect, click **Reject**. You are prompted to enter the rejection date and reason. Once an item is rejected, it must be reviewed on the Position Management > Maintenance > PMIS Payroll Rejections page. If you need to reverse and remove it from a pending status, click **Rollback**. All changes from the initial Change in Position request are reversed.
