ASCENDER - PMIS: Retro Pay

The purpose of this document is to guide you through the Position Management Retro Pay Process. The following steps should be performed **after** the 11-month and/or 12-month employees have been rolled to the current year payroll and PMIS.

This process calculates the difference between the current salary reflected in Payroll and the new salary reflected in NY PMIS, and then pays the employee the difference via extra duty pay.

This checklist assumes you are familiar with the basic features of the ASCENDER Business system and have reviewed the ASCENDER Business Overview guide.

Some of the images and/or examples provided in this document are for informational purposes only and may not completely represent your LEA's process.

Before You Begin

Review the TRS Rules for Retro Pay.

- Reference Item **16. Retroactive Pay Increases Excluded by the Plan's Terms** under **Compensation Not Eligible for TRS** on the TRS Creditable Compensation page at https://www.trs.texas.gov/Pages/re_creditable_compensation.aspx.

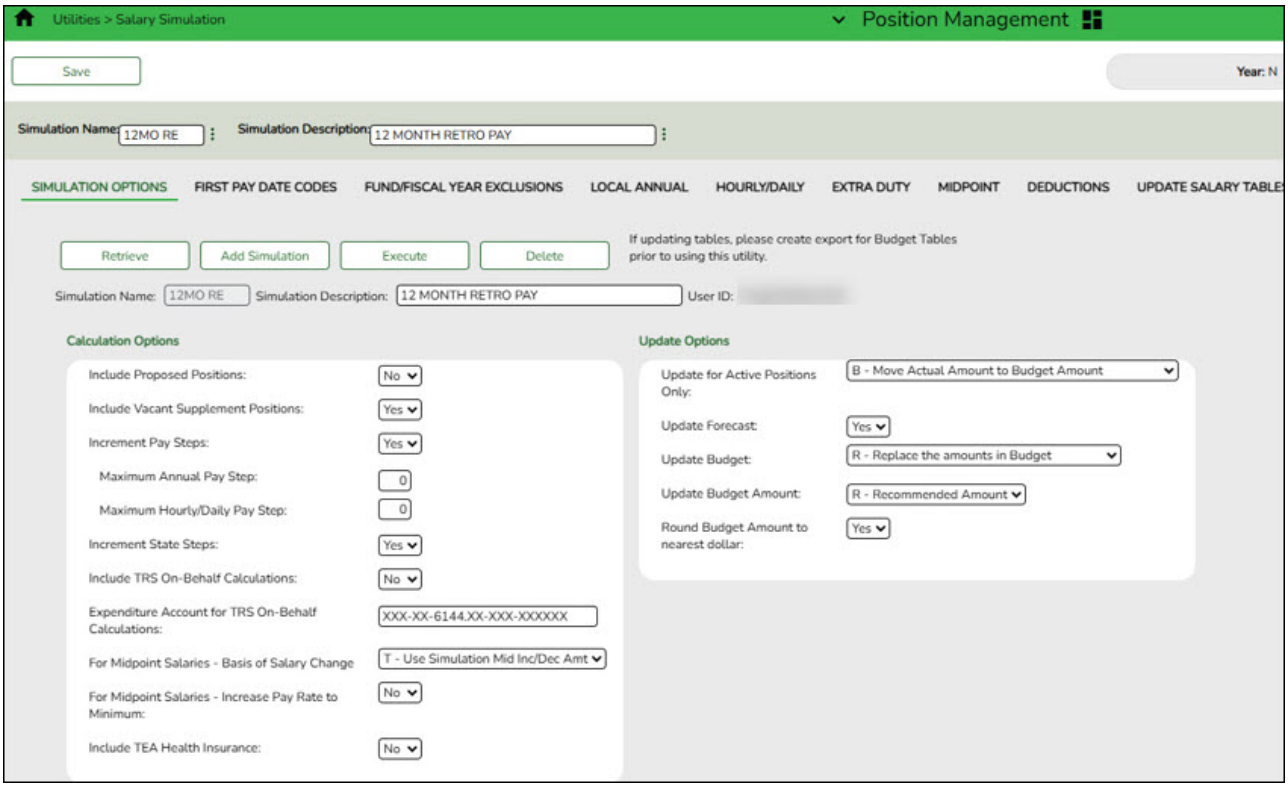

Retro Pay Process

1. Create a simulation.

Create a simulation

Position Management > Utilities > Salary Simulation > Simulation Options

Create a salary simulation for the group of employees who are owed retro pay that includes a raise.

❑ Under **Update Options**, in the **Update Forecast** field, select *Yes*.

❑ Click **Execute** to begin the simulation process.

❑ Under **Calculation Reports**:

- Select the report(s) from the list. Click **Select All** or **Unselect All** to select all of the reports or unselect all reports.
- Click **Generate Reports**. The reports are displayed in the order selected.

❑ Click **Process** to save the data to budget and/or PMIS records based on the **Update Options** selected. And, then process the simulation. The simulation updates the forecast and clears the **Accept Changes** checkbox.

2. Process retro pay.

Perform Retro Pay

Position Management > Utilities > Retro Pay Processing

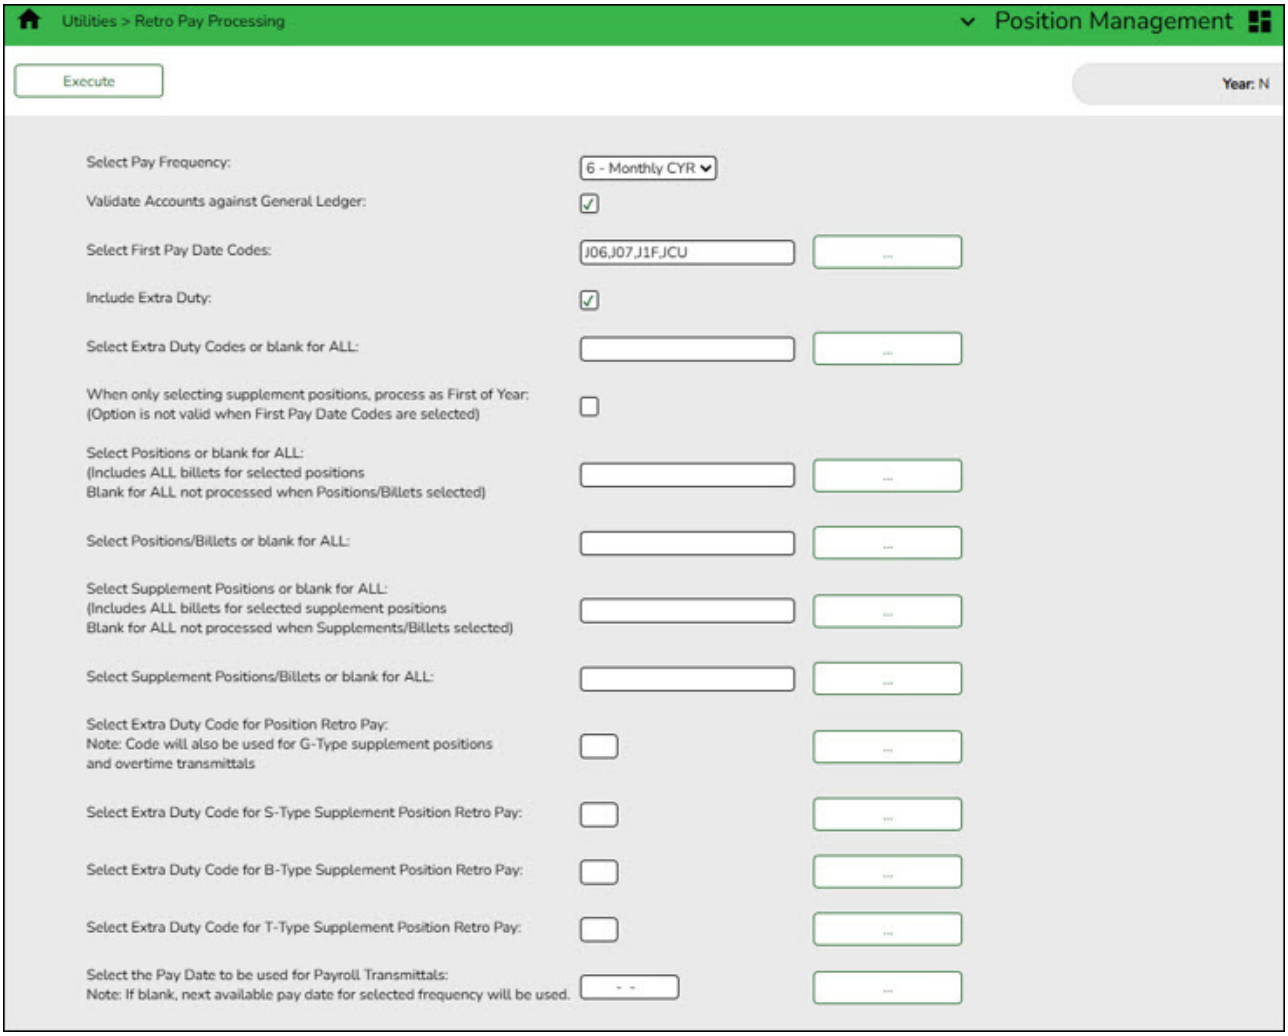

Perform the retro pay processing. You must be logged on to a next year pay frequency to access this utility.

Create an export using Export PMIS Tables prior to using this utility.

PMIS Overtime Notes

- If the employee's position record has hours per day, the following overtime calculation is used: overtime rate = (daily rate / hours per day) * 1.5, hourly rate = (daily rate / hours per day).

- If the employee's position record hours per day is zero and the job code table has FTE Hours, the following overtime calculation is used: overtime rate = (daily rate / (fte hours / 5) * 1.5, hourly rate = (daily rate / (fte hours / 5).
- If the employee's position record hours per day is zero and the job code table has zero FTE Hours, the following overtime calculation is used: overtime rate = (daily rate / standard hrs) * 1.5, hourly rate = (daily rate / standard hrs).
