Select a method to retrieve an invoice:

Field	Description
<b>Invoice Number</b>	Type an invoice number. The field can be a maximum of six digits. If the user enters a partial invoice number (from one to five digits) and tabs out of the field, the system zero-fills the field to equal six digits. If alphanumeric values are entered, the system does not zero-fill the field.
<b>Customer Name</b>	Type the customer for whom the invoice was created. The <b>Customer Nbr</b> field is populated by the system when the <b>Customer Name</b> field is populated.
<b>Customer Nbr</b>	Type the customer number for whom the invoice was created. The field can be a maximum of 20 characters. The <b>Customer Name</b> field is automatically populated when the <b>Customer Nbr</b> field is populated.
<b>Include Fully Paid</b>	Select to retrieve fully paid invoices. Otherwise, leave blank.
<b>Date Range</b>	Type the from and to dates from which to select invoices. The <b>To</b> field is set to the current system date, but it can be modified.

Click **Retrieve**. The selected invoices and payments that have been received are displayed. Associated account code and payment information is displayed in the bottom grid for each invoice.
