Asset Management > Tables > Fiscal Year

This page is used to define the month and year ranges for each fiscal year. The first fiscal year entry should be defined for the earliest in-service date for an asset as these entries are used by the program to calculate depreciation for all capital assets.

Notes:

The preceding fiscal year must exist or be added to the table in order to complete the end-of-year process.

Be sure to add all of the necessary years to complete your latest depreciation date.
