Asset Management > Utilities > Delete by File ID

This utility is used to remove all records except the tables of a selected file ID..

Delete file IDs:

All available file IDs are displayed on the left side of the page under **Available File IDs**. Select the desired file IDs to be exported. Use the following buttons to move the selected file IDs to the right side of the page.

-  - Click to move selected entries from the left side to the right side of the page.
-  - Click to move all entries from the left side to the right side of the page.
-  - Click to move selected entries from the right side to the left side of the page.
-  - Click to move all entries from the right side to the left side of the page.

Execute	Click to execute the process. ☐ Click Execute to execute the process. A message is displayed indicating that you are about to export Asset Management tables and confirming that you want to continue. - Click Yes to continue the export. - Otherwise, click No to cancel the export. In the Enter a Password for the Archive field, type a password for the exported file and click OK. - Otherwise, click Cancel. The Save As dialog box is displayed. - In the File name field, the file name is set to dbccddd_mmddyyyy_bam.rsf, where cccddd is the county-district number, X is the file ID, and mmddyyyy is the current date. You can type a different name for the file. Navigate to the appropriate folder and save the file. A message is displayed indicating that the export process completed successfully. Click OK.
