## Asset Management > Utilities > Mass Update > Book

This utility is used to update the inventory data on all records, only capital assets records, or only inventory asset records. Values in the drop-down list of the **From** column are derived from the book record values. Values in the drop-down list of the **To** column are derived from the code tables.

**Note:** When multiple criteria are selected for mass update, records selected must match all criteria.

### Mass update book records:

Field	Description
<b>Capital Assets</b>	Select assets that were valued at greater than \$5,000.00 when originally purchased.
<b>Inventory Assets</b>	Select assets that were valued at less than \$5,000.00 when originally purchased, but which require inventory control and management.
<b>Both</b>	Select capitalized and inventory records.
