Asset Management > Utilities > Mass Update > Inventory

This utility is used to update the inventory data for all records, only capital asset records, or only inventory asset records. Values in the drop-down list of the **From** column are derived from inventory record values. Values in the drop-down list of the **To** column are derived from the code tables.

Note: When multiple criteria are selected for mass update, records selected must match all criteria.

Mass update inventory records:

Under **Inventory Types**:

Field	Description
Capital Assets	Select assets that were valued at greater than \$5,000.00 when originally purchased.
