Budget > Utilities > Budget Level Processing > Recommended

This utility is used to transfer the results of a budget simulation to the Maintenance > Budget Data > Recommended tab. The **Next Yr Recommend** column is updated with the results of the processed simulation. Simulations created by all users with access to the Utilities > Mass Increase/Decrease Account Codes > Recommended tab are displayed. Users can only process their simulations unless simulations were copied from one user to another.

Note: Simulations are based on the user profile of the logged-on user. Payroll accounts can be included in the simulation even though the user may not have access to 61XX.

Transfer recommended simulation data:

All simulations created and processed by all users with access to the Utilities > Mass Increase/Decrease Account Codes > Recommended tab are displayed. Simulation sequence numbers are displayed in the detail area at the bottom of the tab.

Note: Users can only execute simulations that were created by the logged-on user. If a user executes a simulation from another user, the error message "r;User ID: XXXXXX does not match login User ID" is displayed.

Field	Description
Recommended Cutoff Date	<p>The date for which updates to accounts are no longer accepted is displayed.</p> <p>If the LEA uses cutoff dates, no data can be transferred after the displayed cutoff date.</p> <p>If the LEA does not use cutoff dates, simulation data can be transferred at any time up to final budget approval.</p>

- In the upper grid, select the simulation to transfer to the **Next Yr Recommend** column on the Maintenance > Budget Data > Recommended tab. The sequence numbers associated with the simulation are displayed. If multiple sequences are displayed, they are processed in the order listed.
- Click **Execute** to transfer the values resulting from the selected simulation to the **Next Yr Recommend** column on the Maintenance > Budget Data > Recommended tab. A Budget Level Processing report is displayed. [Review the report.](#)
- Click **Process** to complete the transfer of the selected simulation. A message is displayed prompting you to perform a [backup](#).
- Click **Cancel** to return to the Budget Level Processing > Recommended tab.
