Copy Current to New File ID - BUD7200

Budget > Utilities > Copy Current To New File ID

This page is used to select individual funds or multiple funds in the current file ID and copy them to a new file ID for archive purposes. The one-character file ID is numeric. This feature enables users to retain their previous years' budget tables without interfering with current budget tables. Copying funds to a new file ID multiple times will not update any information in the new file ID. If users need to update any information, they must log on to the new file ID through the Change File ID page and manually make the changes.

Copy a current file ID fund to a new file ID:

The following receiving options selected on the Options > Purchasing Options page in District Administration determine how information is displayed as well as if certain requisition items can be received on this page.

- If **Use Blind Receiving** is selected, order quantities are not shown on this page.
- If **Allow Partial Receiving** is not selected, only complete requisition items can be received.
- If **Allow Receiving Overage** is not selected, only the original item quantity ordered or less can be received.
