# Copy Current to New File ID - BUD7200

## Budget > Utilities > Copy Current To New File ID

This page is used to select individual funds or multiple funds in the current file ID and copy them to a new file ID for archive purposes. This feature enables users to retain previous years' budget tables without interfering with current budget tables. Copying funds to a new file ID multiple times will not update any information in the new file ID. If users need to update any information, they must log on to the new file ID through the Change File ID page and manually make the changes.

The funds displayed on this page are retrieved from the account code table rather than the accounts in Budget; therefore, you might see funds from various fiscal years.

The screenshot displays the 'Utilities > Copy Current To New File ID' interface. At the top left, there is a 'New File ID:' dropdown menu with '0' selected, highlighted by a red circle. To the right is an 'Execute' button with a red arrow pointing to it. Below these is a table with columns 'Select', 'Fund / Year', and 'Fund Description'. The table contains 25 rows of fund data. At the bottom of the interface, there is a 'Select All' button with a red arrow pointing to it, and an 'Unselect All' button.
