# FIN1050 - Expenditure and Liquidation Journal

## *Finance > Reports > Finance Reports > Journals, Checks, Detail Ledgers > Expenditure and Liquidation Journal*

The report displays a list of all checks posted for a specified period. It is sorted by fund and separates the computer- and district-written checks. Use this report to verify transactions prior to closing the accounting period. The contra account totals on the report display in the general ledger as disbursement offsets (2111, 1111) and liquidation offsets (4310) in each fund. For deferred checks that have been reversed, the check number is blank.

The report prints either by the due date or the check transaction date, depending upon the data entered in the Date to be used field on the Finance Options tab. Report information is displayed based on the masked account codes set in the User Profiles table for the logged-on user.
