# Budget Amendment Reports

## *Finance > Reports > Finance Reports > Budget Amendment Reports*

The following fields are displayed at the top of the page:

<b>File ID</b>	Displays the file ID to which the user is logged on.
<b>User ID</b>	Displays the logged-on user ID.
<b>Curr Per</b>	Displays the current accounting period.
<b>Next Per</b>	Displays the next accounting period.

This page allows you to select the report you want to generate.

## Select a report:

All available report names are displayed on the left side of the page. The list of available reports remains displayed on the page even after you select a report name. This allows you to select another report within the selected reports menu without exiting the report page.

☐ Click a report to select it. The parameters for the selected report are displayed on the right side of the page.

☐ Type or select the report options. **Parameters in bold are required.**

☐ Use the buttons located at the top of the page to generate the report. If the button feature does not apply to the selected report, it is disabled. For example, a certain report may not be available in the CSV format, so the **CSV** button will be disabled when that report is selected.

- **Preview** - Click to generate the HTML view of the report.
- **PDF** - Click to generate a PDF file of the report.
- **CSV** - Click to generate a CSV file of the report.
- **Clear Options** - Click to clear data from all parameter fields.

## Sort and filter:

Some reports may or may not provide the sort and/or filter option.

<b>Sort</b>	<p><b>Sort report data:</b></p> <p>You can sort data to make it easier to review or find records in the reports. Not all reports allow this option.</p> <p>From the report window, click <b>Sort/Filter</b> to open the Sort/Filter window. By default, the <b>Sort Criteria</b> section is expanded. If not, click <b>Sort Criteria</b>.</p>	
	<b>(Left grid) Columns Available for Sorting</b>	<p>Select the columns by which you want to sort, the columns are highlighted blue. Click ► to move the selected columns to the right side of under <b>Sort Columns</b>. Continue moving columns to the right grid as needed.</p>
	<b>(Right grid) Sort Columns</b>	<p>You can rearrange the columns to indicate the order in which you want the sort applied. Click a column name, and drag it up or down to a new location.</p> <p>In the right grid, for each column, click to indicate if you want that data sorted in ascending (e.g., A-Z, 0-9) or descending (e.g., Z-A, 9-0) order.</p> <p>To remove a column from the sort, select the column, and then click to move it back to the left grid.</p>
<p>Click <b>OK</b> to apply the selected sort criteria to the report.</p> <p>Click <b>Cancel</b> to close the window without re-sorting.</p>		

<b>Filter</b>	<b>Filter report data:</b> When you want to view only certain data, you may find it useful to filter the report data. You can use specific criteria to retrieve only the data that you want. Not all reports allow this option. From the report window, click <b>Sort/Filter</b> to open the <b>Sort/Filter</b> window. By default, the <b>Sort Criteria</b> section is expanded. Click <b>Filter Criteria</b> to expand the <b>Filter Criteria</b> section. If the report does not allow sorting, the <b>Filter</b> button is displayed instead of the <b>Sort/Filter</b> button, and sort criterion fields are not available. Click <b>Add Criterion</b> to add new filter criteria. A blank row is displayed in the grid.	
	<b>Field</b>	<b>Description</b>
	<b>Column</b>	Select a column by which to filter the data. The drop down lists the columns that appear on the report.
	<b>Operator</b>	Select an operator. = Equals ≠ Not equals < Less than ≤ Less than or equal to > Greater than ≥ Greater than or equal to
	<b>Value</b>	Type the value by which you want to filter. For example, if you selected a date in the <b>Column</b> field, type a date to view only data for a specific date.
	<b>Other functions and features:</b>	
	<b>Add Criterion</b>	<a href="#">Add another row.</a> Select the logical connector ( <i>AND</i> or <i>OR</i> ) in the <b>Logical</b> field. Continue adding rows as needed. Using the <i>AND</i> operator limits search results, because the program looks only for records that contain both criterion. Using the <i>OR</i> operator expands search results, because the program looks for records that contain either one criterion or the other, or both.
	<b>Delete Selected</b>	<a href="#">Delete selected row.</a> Select the row, and then click the <b>Delete Selected</b> button. The row is deleted from the filter criteria.
	<b>Click OK to apply the selected filter criteria to the report.</b> <b>Click Cancel to close the dialog box without applying a filter.</b>	
	<b>Reset</b>	<a href="#">Reset report data.</a> Click to restore the report to the original view, removing all sorting and filtering that has been applied.

# FIN5150 - Amended Budget Summary Report

## Finance > Reports > Budget Amendment Reports > Amended Budget Summary Report

The report presents information similar to the general ledger report in the Finance application. The difference between the Budget Amendment Report and the Amended Budget Summary Report is the manner in which the information is broken down. Budget account totals are identified by an asterisk (\*) to the left of the account number. Those line items without asterisks are either section headings or subtotals. Indicate the fund numbers you want to include on the report. You can print the report for up to five individual funds or for all funds.

Parameter	Parameter Description
<b>Include All Ledger (L), or Amendment Increase/Decrease only (A)</b>	L - Include all general ledger transactions on the report. A - Include only general ledger transactions which have amendment transactions that have increased or decreased on the report. This is a required field.
<b>Select Fund(s), or blank for ALL</b>	Type the three-digit fund number separating multiple fund numbers with a comma (e.g., 161 / 8,199 / 8). Or, click  to search for funds/years. Otherwise, leave blank to use all fund numbers.
<b>Select Amendment Nbr(s), or blank for ALL</b>	Type the amendment number separating multiple amendment numbers with a comma (e.g., B05, BOARD). Or, click  to search for amendment numbers. Otherwise, leave blank to use all amendment numbers.
<b>From Date (MMDDYYYY), or blank for ALL</b>	Type the from date in the MMDDYYYY format, or leave blank to use all from dates.
<b>To Date (MMDDYYYY), or blank for ALL</b>	Type the to date in the MMDDYYYY format, or leave blank to use all to dates.

# FIN5250 - Amended Budget Transaction List

**Finance > Reports > Budget Amendment Reports > Amended Budget Transaction List**

The report displays a list of all transaction numbers in the current period.

Parameter	Parameter Description
<b>Sort by Account (A) or Amendment Nbr (N)</b>	A - Sort the report by account number. N - Sort the report by amendment number. This is a required field.
<b>Select Fund(s), or blank for ALL</b>	Type the three-digit fund number separating multiple fund numbers with a comma (e.g., 161 / 8,199 / 8). Or, click  to search for funds/years. Otherwise, leave blank to use all fund numbers.
<b>Select Amendment Nbr(s), or blank for ALL</b>	Type the amendment number separating multiple amendment numbers with a comma (e.g., B05, BOARD). Or, click  to search for amendment numbers. Otherwise, leave blank to use all amendment numbers.
<b>From Date (MMDDYYYY), or blank for ALL</b>	Type the from date in the MMDDYYYY format, or leave blank to use all from dates.
<b>To Date (MMDDYYYY), or blank for ALL</b>	Type the to date in the MMDDYYYY format, or leave blank to use all to dates.
<b>Select Board Approved Required (Y), Non Board Approve Required (N), Both (B)</b>	Y - Include only budget amendments requiring board approval on the report. N - Include only budget amendments not requiring board approval on the report. B - Include all amendments on the report. This is a required field.

# FIN1700 - Accounts Payable Listing

**Finance > Reports > Finance Reports > Journals, Checks, Detail Ledgers > Accounts Payable Listing**

The report displays information about the deferred checks in the system. It lists vendor name and number, account number, record number, PO/PA number, contents of the print flag, accounting period, invoice number, and expense amount. In addition, it is the only report in the system that prints both due date and transaction date. The report prints totals for vendors, POs/PAs, and funds, in addition to a grand total payable balance. The upper-left heading of the report indicates whether the checks are sorted by due date or transaction date. Report information is displayed based on the masked account codes set in the User Profiles table for the logged-on user.

Parameter	Parameter Description
<b>Accounting Period Current (C), Next (N)</b>	C - Include the current accounting period on the report. N - Include the next accounting period on the report. This is a required field.
<b>Sort by Vendor#/PO/Fund (1), Vendor Name/PO/Fund (2), Fund/Vendor#/PO (3)</b>	1 - Sort the report by vendor number, purchase order, and then by fund. 2 - Sort the report by vendor name, purchase order, and then by fund. 3 - Sort the report by fund, vendor number, and then by purchase order. This is a required field.
<b>Print only the deferred checks? (Y/N)</b>	Y - Print only the deferred checks on the report. N - Do not print only the deferred checks on the report. This is a required field.
<b>Include Credit Memos? (Y/N)</b>	Y - Include credit memos on the report. N - Do not include credit memos on the report. This is a required field.
<b>Include ONLY EFT Payment? (Y/N)</b>	Y - Include only electronic funds transfer payments on the report. N - Do not include only electronic funds transfer payments on the report.
<b>Select Fund(s), or blank for ALL</b>	Type the three-digit fund number separating multiple fund numbers with a comma (e.g., 161 / 8,199 / 8). Or, click  to search for funds/years. Otherwise, leave blank to use all fund numbers.
<b>From Date (MMDDYYYY), or blank for ALL</b>	Type the from date in the MMDDYYYY format, or leave blank to use all from dates.
<b>To Date (MMDDYYYY), or blank for ALL</b>	Type the to date in the MMDDYYYY format, or leave blank to use all to dates.

# FIN1600 - Batch Process Balance Error Listing

## **Finance > Reports > Finance Reports > Journals, Checks, Detail Ledgers > Batch Process Balance Error Listing**

The report displays a list of the accounts whose transactions added to the beginning balance do not equal the ending balance. It is recommended that this listing be run frequently (daily/weekly). Report information is displayed based on the masked account codes set in the User Profiles table for the logged-on user.

### **Notes:**

- The report displays out-of-balance funds. If all funds are balanced, the report displays headers only.
- When selecting report options, the following three combinations are suggested:
  - Year-to-Date (Y) and Accounting Period Current (C)
  - Year-to-Date, Current and Next (A); and Accounting Period Current (C)
  - Year-to-Date, Current and Next (A); and All Accounting Period (A)
- There are three lines of amounts that are printed for each out-of-balance account code error:
  - Account Balance - This indicates the ending amounts in the general ledger for the selected account.
  - Calculated Balance - This indicates the value the program calculates that the ending amounts should be.
  - Variance - This indicates the amounts by which the account is out of balance.
- The report header includes a **Report Type** field (e.g., Report Type: A/A) that is a summary of the report parameters that were chosen when the report was run.
  - The first letter represents the **Use Current (C), Year-To-Date (Y), Year-To-Date, Current, Next (A)** report parameter.
  - The second letter represents the **Accounting Period Current (C), All (A)** report parameter.

Parameter	Parameter Description
<b>Use Current (C), Year-To-Date (Y), Year-To-Date, Current, Next (A)</b>	C - Include the current reporting month on the report. Y - Include the year-to-date transactions on the report. A - Include the year-to-date transactions (current and next year) on the report. This is a required field.
<b>Accounting Period Current (C), All (A)</b>	C - Include the current year accounting period on the report. A - Include all accounting periods on the report. This is a required field.
<b>Select Fund(s), or blank for ALL</b>	Type the three-digit fund number separating multiple fund numbers with a comma (e.g., 161 / 8,199 / 8). Or, click  to search for funds/years. Otherwise, leave blank to use all fund numbers.

# FIN1450 - Detail General Ledger by Account Per

**Finance > Reports > Finance Reports > Journals, Checks, Detail Ledgers > Detail General Ledger by Acct Per**

The report allows the user to select a specific fund, function, object, subobject, and program code for which to print transactions. The user can select From and To accounting periods. Vendor transactions allow for printing of either the name of the vendor or the reason for the transaction. Report information is displayed based on the masked account codes set in the User Profiles table for the logged-on user.

## Notes:

- If any errors are encountered while running the report, an error listing is printed at the end of the report. The user can use this information to locate the account code that is in error. The error for the specific account code is printed at the end of the account code line. The following are the errors that may be displayed:
  - Transactions do not equal balance - There are transactions, but the beginning amounts plus the transactions do not equal the ending amounts.
  - EOM does not equal balance - There are no transactions, but the beginning amounts and the ending amounts are not equal.
  - Error suspect records - Class does not equal 1-8.
- The report displays account transactions using the **From Accounting Period** and **To Accounting Period** report parameters. The beginning account balances are calculated by using a **Starting Accounting Period of the Finance Fiscal Year** of 07 or 09 (fiscal year July or September) and adding all transactions up to the from accounting period. The ending balance is calculated by adding all requested transactions and the beginning balance.

**Note:** If the **Starting Accounting Period of the Finance Fiscal Year** report parameter is equal to the **From Accounting Period** and **To Accounting Period** report parameters, and the user types Y in the **Include Previous Months' Balances? (Y/N)** report parameter, the program assumes a beginning balance of zero, since there is no difference between the starting accounting period and the from accounting period.

Example 1: The user types Y in the **Include Previous Months' Balances? (Y/N)** report parameter. The **Starting Accounting Period of the Finance Fiscal Year**, **From Accounting Period**, and **To Accounting Period** report parameters are all set to 09. The system assumes a zero balance, since there is no difference between the accounting periods.

Example 2: The user types Y in the **Include Previous Months' Balances? (Y/N)** report parameter. The **Starting Accounting Period of the Finance Fiscal Year**, **From Accounting Period** report parameter is set to 07, and the **From Accounting Period** and **To Accounting Period** report parameters are set to 09. The system displays the balances from 07 to 08 and any transactions created in 09.

Parameter	Parameter Description
<b>Include Previous Months' Balances? (Y/N)</b>	Y - Include balances from previous months on the report. N - Do not include balances from previous months on the report. This is a required field.
<b>Enter the Starting Accounting Period of the Finance Fiscal Year</b>	Type 07 or 09 to indicate the first month of the Finance fiscal year.
<b>From Accounting Period</b>	Type the two-digit from accounting period. This is a required field.
<b>To Accounting Period</b>	Type the two-digit to accounting period. This is a required field.

# FIN1650 - Selective Detail General Ledger

## Finance > Reports > Finance Reports > Journals, Checks, Detail Ledgers > Selective Detail General Ledger

The report allows the user to select a specific fund, function, object, subobject, organization, program, educational span, and project detail code for which to print transactions. The user can select current and year-to-date files. Check transactions allow for printing of either the check date or the transaction date. Vendor transactions allow for printing of either the name of the vendor or the reason for the transaction. Use the soft encumbrance option to include or exclude soft encumbrances. Report information is displayed based on the masked account codes set in the User Profiles table for the logged-on user.

### Notes:

- If any errors were encountered while running this report, an error listing is printed at the end of the report. The user can use this information to locate the account code that is in error. The error for the specific account code is printed at the end of the account code line. The following are the errors that may be displayed:
  - Transactions do not equal balance - There are transactions, but the beginning amounts plus the transactions do not equal the ending amounts.
  - EOM does not equal balance - There are no transactions, but the beginning amounts and the ending amounts are not equal.
  - Error suspect records - Class does not equal 1-8.
- The report header includes a **Report Type** field (e.g., Report Type: A/A) that is a summary of the report parameters that were chosen when the report was run.
  - The first letter represents the **Use Current (C), Year-To-Date (Y), Year-To-Date, Current, Next (A)** report parameter.

# FIN3550 - 65% Instruction Expenditure Ratio

## Finance > Reports > Finance Reports > Summary/Miscellaneous Reports > 65 Percent Instruction Expenditure Ratio

The report assists districts with determining the NCES Definition percentage and the NCES Modified percentages for School FIRST.

Parameter	Parameter Description
<b>Include Reports (Select From List)</b>	Type a Y or an N to include or exclude specific reports (NCES Definition and NCES Modified Definition) separating each of the reports with a comma and no space (e.g., Y,N). Or, click  to include reports. This field is required.

Information from the TASBO website: The two indicators numbered 13 and 14 will count only 3 points each. Indicator 13 will follow the NCES standard for calculation of the 65% instructional expenditure amount, and Indicator 14 will be a modified version of the NCES standard. If Indicator 13 is answered "No," a school district may publish its check register (excluding payroll items) to receive full credit or 3 points for this indicator. The two indicators that will implement the 65% rule are:

13. Was The Percent Of Operating Expenditures Expended For Instruction More Than or Equal to 65%? (Functions 11, 36, 93, and 95) (Phased in over three years: 55% for 2006-2007; 60% for 2007-2008; and 65% for 2008-2009.)

14. Was The Percent Of Operating Expenditures Expended For Instruction More Than or Equal to 65%? (Functions 11, 12, 31, 33, 36, 93, and 95)

The information the report is using to calculate the percentages is:

# Vendor/Purchase Order Reports

## *Finance > Reports > Finance Reports > Vendor/Purchase Order Reports*

The following fields are displayed at the top of the page:

<b>File ID</b>	Displays the file ID to which the user is logged on.
<b>User ID</b>	Displays the logged-on user ID.
<b>Curr Per</b>	Displays the current accounting period.
<b>Next Per</b>	Displays the next accounting period.

This page allows you to select the report you want to generate.

## Select a report:

All available report names are displayed on the left side of the page. The list of available reports remains displayed on the page even after you select a report name. This allows you to select another report within the selected reports menu without exiting the report page.

☐ Click a report to select it. The parameters for the selected report are displayed on the right side of the page.

☐ Type or select the report options. **Parameters in bold are required.**

☐ Use the buttons located at the top of the page to generate the report. If the button feature does not apply to the selected report, it is disabled. For example, a certain report may not be available in the CSV format, so the **CSV** button will be disabled when that report is selected.

- **Preview** - Click to generate the HTML view of the report.
- **PDF** - Click to generate a PDF file of the report.
- **CSV** - Click to generate a CSV file of the report.
- **Clear Options** - Click to clear data from all parameter fields.

## Sort and filter:

Some reports may or may not provide the sort and/or filter option.

<b>Sort</b>	<p><b>Sort report data:</b></p> <p>You can sort data to make it easier to review or find records in the reports. Not all reports allow this option.</p> <p>From the report window, click <b>Sort/Filter</b> to open the Sort/Filter window. By default, the <b>Sort Criteria</b> section is expanded. If not, click <b>Sort Criteria</b>.</p>	
	<b>(Left grid) Columns Available for Sorting</b>	Select the columns by which you want to sort, the columns are highlighted blue. Click ► to move the selected columns to the right side of under <b>Sort Columns</b> . Continue moving columns to the right grid as needed.
	<b>(Right grid) Sort Columns</b>	<p>You can rearrange the columns to indicate the order in which you want the sort applied. Click a column name, and drag it up or down to a new location.</p> <p>In the right grid, for each column, click to indicate if you want that data sorted in ascending (e.g., A-Z, 0-9) or descending (e.g., Z-A, 9-0) order.</p> <p>To remove a column from the sort, select the column, and then click to move it back to the left grid.</p>
	<p>Click <b>OK</b> to apply the selected sort criteria to the report.</p> <p>Click <b>Cancel</b> to close the window without re-sorting.</p>	

<b>Filter</b>	<b>Filter report data:</b>	
	When you want to view only certain data, you may find it useful to filter the report data. You can use specific criteria to retrieve only the data that you want. Not all reports allow this option.	
	From the report window, click <b>Sort/Filter</b> to open the <b>Sort/Filter</b> window. By default, the <b>Sort Criteria</b> section is expanded. Click <b>Filter Criteria</b> to expand the <b>Filter Criteria</b> section.	
	If the report does not allow sorting, the <b>Filter</b> button is displayed instead of the <b>Sort/Filter</b> button, and sort criterion fields are not available.	
	Click <b>Add Criterion</b> to add new filter criteria. A blank row is displayed in the grid.	
	<b>Field</b>	<b>Description</b>
	<b>Column</b>	Select a column by which to filter the data. The drop down lists the columns that appear on the report.
	<b>Operator</b>	Select an operator. = Equals ≠ Not equals < Less than ≤ Less than or equal to > Greater than ≥ Greater than or equal to
	<b>Value</b>	Type the value by which you want to filter. For example, if you selected a date in the <b>Column</b> field, type a date to view only data for a specific date.
	<b>Other functions and features:</b>	
	<b>Add Criterion</b>	<a href="#">Add another row.</a> Select the logical connector ( <i>AND</i> or <i>OR</i> ) in the <b>Logical</b> field. Continue adding rows as needed. Using the <i>AND</i> operator limits search results, because the program looks only for records that contain both criterion. Using the <i>OR</i> operator expands search results, because the program looks for records that contain either one criterion or the other, or both.
	<b>Delete Selected</b>	<a href="#">Delete selected row.</a> Select the row, and then click the <b>Delete Selected</b> button. The row is deleted from the filter criteria.
	<b>Click OK to apply the selected filter criteria to the report.</b> <b>Click Cancel to close the dialog box without applying a filter.</b>	
	<b>Reset</b>	<a href="#">Reset report data.</a> Click to restore the report to the original view, removing all sorting and filtering that has been applied.
	<b>Reset</b>	<a href="#">Reset report data:</a> Click to restore the report to the original view, removing all sorting and filtering that has been applied.

# FIN2100 - 1099 Forms

## Finance > Reports > Finance Reports > Vendor/Purchase Order Reports > 1099 Forms

A 1099 form is generated for a vendor only if at least one of the following conditions apply:

- The 1099 eligible flag is set to Y.
- The SSN/EIN is entered on the Vendor Name/Address maintenance tab for that vendor.
- The total of all 1099 work table transactions for that vendor is greater than or equal to \$600.00.
- There is any amount in Box 4 (Federal income tax withheld) or Box 14 (Gross proceeds paid to an attorney).
- Box 2 (Royalties) is greater than or equal to \$10.00.

If more than 250 1099 forms are generated, you are required to electronically file with the IRS. This requirement applies separately to each type of form.

Parameter	Parameter Description
<b>Sort by Alpha (A), EIN/SSN (N), Zip Code (Z)</b>	A - Sort the report alphabetically. N - Sort the report by employer ID number (EIN) or social security number (SSN). Z - Sort the report by zip code. This is a required field.
<b>Print 1099 Form only (1), 1099 form including 1099 file (2), Non-preprinted Copy B and C (3)</b>	1 - Print only the 1099 form on Forms LMA, LMB, or CMC/LM2. 2 - Print the 1099 form and the 1099 file. For tax years greater than 2019, the 1099-MISC file and the 1099-NEC file are generated separately based on the selection in the <b>For Tax Year &gt; 2019, Print 1099-MISC (M) or 1099-NEC (N)</b> parameter. 3 - Print copies B and C. Both print on one page for the same vendor. This is a required field.
<b>Tax Year (####)</b>	Type the tax year in YYYY format.
<b>For Tax Year &gt; 2019, Print 1099-MISC (M) or 1099-NEC (N)</b>	For tax years greater than 2019, select one of the following:  M - Print the 1099-MISC (Miscellaneous) form.  N - Print the 1099-NEC (Nonemployee Compensation) form.  Leave blank for tax years less than 2020. <b>Notes:</b> The 1099-MISC (M) form prints the sum of all transactions (if at least \$600) in the 1099 work file except those tied to an object code with a <b>Type Payment</b> of <i>N - Non-employee compensation</i> on the <a href="#">Finance &gt; Tables &gt; 1099 Object Codes</a> page. The 1099-NEC (N) form prints the sum of all transactions (if at least \$600, excluding credit card transactions) in the 1099 work file that are tied to an object code with a <b>Type Payment</b> of <i>N - Non-employee compensation</i> on the <a href="#">Finance &gt; Tables &gt; 1099 Object Codes</a> page.

Parameter	Parameter Description
<b>Control Name (4 char, only required for 1099 file)</b>	Type the payer name control that can be obtained only from the mail label on the Package 1099 that is mailed to most payers each December. The Package 1099 contains a Form 7018-C, Order Blank for Forms, and the mail label on the package contains a four-character name control. If a Package 1099 has not been received, you can determine your name control using the following simple rules, or you can leave the field blank. For a business, use the first four significant characters of the business name. Disregard the word "the" when it is the first word of the name unless there are only two words in the name. A hyphen (-) and an ampersand (&) are the only acceptable special characters.
<b>Contact Name (40 char, only required for 1099 file)</b>	Type the transmitter's name in the manner in which it is used in normal business.
<b>Control Code (5 char for 1099 file)</b>	Type the five-character alphanumeric transmittal control code (TCC) assigned by the IRS/MCC. A TCC must be obtained to file data with this program.
<b>Select Vendor(s), or blank for ALL</b>	Type the five-digit vendor number, including all leading zeros and separating multiple vendor numbers with a comma (00126, 01260). Or, click  search for vendor numbers to search for vendor numbers. Otherwise, leave blank to use all vendor numbers.

# FIN2050 - 1099 Report

## Finance > Reports > Finance Reports > Vendor/Purchase Order Reports > 1099 Report

The report provides a preview of all information to be included on the 1099 forms for the appropriate vendors. It lists every vendor with **1099 Eligible** selected on the [Finance > Maintenance > Vendor Information > Vendor Name/Address](#) tab and has transactions using any of the object codes that were set up in the object code tables in the current and prior year file IDs. If there are no codes in the table, all transactions for 1099 eligible vendors are extracted to the 1099 Work Table and are listed on this report. If a description does not display under **Payment Type** next to a transaction, the object code for that account code is not on the 1099 object codes table and that transaction is not included on the 1099-MISC form.

The report is used to verify that a social security number is on file for all vendors requiring a 1099 at the end of the calendar year. The report also provides supporting documentation for the amounts printed on the 1099 forms. Information for this report is stored in the 1099 work table and can be viewed on the 1099 Record Maintenance page by vendor.
