**Finance > Tables > Bank Codes > EFT**

This tab is used to create the record for a vendor's EFT payments to their bank. This function is accomplished by creating an EFT file during a payment run. This file is then given to the local education agency's (LEA) bank to be transmitted to an automatic clearinghouse. The automatic clearinghouse is normally a centralized federal reserve bank that transmits necessary data for electronically transferring funds to the vendor's participating depository financial institution (DFI).
