# Export Finance Tables - FIN7100

## Finance > Utilities > Export Finance Tables

This utility is used to export a copy of all current finance tables, requisition tables, and accounts receivable tables prior to running major functions; vendor-related and user profile tables are not copied. The tables for the logged-on file ID are exported to a user-designated archive file.

### Export finance tables:

Field	Description
<b>Export Filename</b>	The export file name is displayed and has the format dbccddd_mmddyyyy_fin.rsf, where cccddd is the county-district number and mmddyyyy is the current date.
<b>Enter the Password to be used for the Archive</b>	Type the password to be used to retrieve the data.

Click **Execute** to execute the process. A dialog box is displayed with a preset File name, save the file on your computer or network.

A message is displayed indicating that the process was completed successfully.
