Finance > Utilities > Extract to Asset Management

This utility is used to extract records from the Check Transactions file with an object/subobject code that matches an item in the Asset Management Cross-Reference table. Individual items from the file can then be retrieved into the Asset Management application. The extract file is only available in text format, even though the CSV icon is displayed.

Create an asset management extract file:

Under **Create Asset Management Extract File from**, select one of the following:

Field	Description
Processed Check Transactions	Select this field to enable the **Year 1** and **Year 2** fields. Complete the **Acct Period**, **Thru**, and **Fiscal Year** fields.

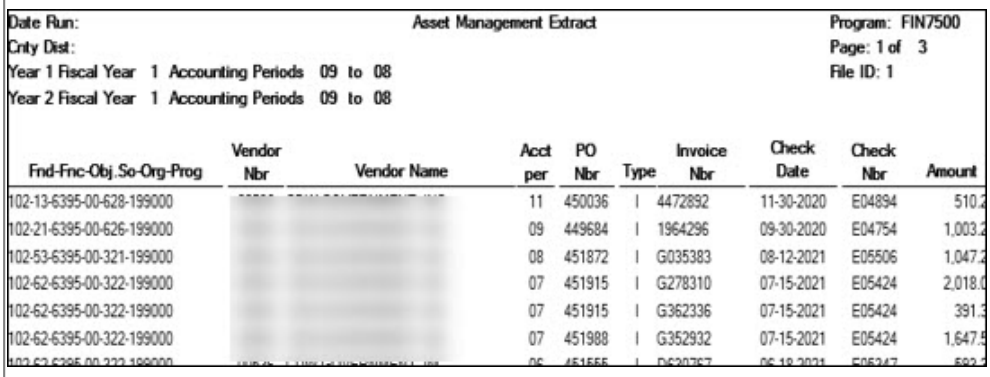

Execute Execute the process.

Notes:

•
The **Use Asset Management Cross-Reference Table** option on the District Finance Options page must be selected before assets/inventory transactions can be extracted.

•
The Asset Management Cross-Reference table must have object/subobject codes for all assets/inventory before assets/inventory transactions can be extracted.

❑ Click **Extract**. The Asset Management Extract report is displayed. Be sure to save or print the report.
