# Add or update staff insurance data

Personnel > Maintenance > Staff Demo > Insurance

Add or update insurance data for all applicable employees.

Since ACA is reported over a calendar year, some employees may have multiple rows if they changed insurance companies during the last enrollment period and you added insurance codes for each plan.

## Retrieve an existing record

Begin typing the employee name or number. As you type the data, a drop-down list of corresponding data is displayed. Select an employee and click **Retrieve**. Or, click **Directory** to perform a search in the [Employees Directory](#).

**Note:** The employee autosuggest field includes employees whose records were created in Personnel but do not have a Pay Info or Job Info record.

If the employee number does not exist in the system, a message is displayed prompting you to create a new employee. Click **Yes**.

Click **+Add** to add a row.

Field	Description
