# Table of Contents

**1099\_create\_1099\_work\_table** ..... i

[Finance > Utilities > Create 1099 Work Table](#)

Process this utility to populate the work table from the check transactions. The table populates the [Finance > Maintenance > 1099 Record Maintenance](#) page and allows you to modify entries.

The create 1099 work table process uses file ID C and the file ID designation in the **Previous Year File ID** field on the Tables > District Finance Options > Finance Options tab for file ID C to determine which file IDs to use. After this utility is processed, if check transactions are identified for a file ID other than C and the **Previous Year File ID** field is blank on the Finance Options tab in file ID C, a warning message asking for confirmation to continue is displayed. Click **Yes** to continue (only file ID C is processed).
