## District Administration > Workflow > Approval Path

Create and maintain the sequence or hierarchy of the approvers for the approval process. The order in which the approvers are listed indicates the approval sequence. You can add to or edit the approval path as needed as long as the approver does not have requisitions pending their approval. If a change is made to the approval path, the change applies to all requisitions that have yet to reach that specific approver.

For the approval process, approvers must exist in Security Administration with an assigned employee number and have a current year payroll record.

**WARNING**  
Changing the approval path will update all pending requests for the selected Workflow Type when the Save button is clicked. Please inform all users to halt all workflow processing prior to save.

**\*\*Note - If Reminder Days value is greater than zero, Approver has that many days in order to respond to Approval before reminder email is sent to Approver. Subsequent emails will be sent daily after initial email. \*\***
