# Budget Extract Automatic Crosswalks

If your district maintains budget data in greater detail than the state-mandated level, the detail is summarized to the state-mandated level. The automatic crosswalks in the extract program perform the summarization.

The state-mandated level of detail for budget data can be found in the [TEA Financial Accountability System Resource Guide](#).

The extract program will automatically make the following changes to the budget data being extracted:

| Account Code Description | Account Code  | PEIMS Code                     |
|--------------------------|---|--------------------------------|
| fund                     | > 160 and < 199   | 199                            |
| fund                     | > 510 and < 599   | 599                            |
| object                   | > 5715 and < 5719   | 5719                           |
| object                   | > 5726 and < 5729   | 5729                           |
| object                   | > 5734 and < 5739   | 5739                           |
| object                   | = 5748  | 5749                           |
| object                   | > 5756 and < 5759   | 5759                           |
| object                   | > 5765 and < 5769   | 5769                           |
| object                   | > 5816 and < 5819   | 5819                           |
| object                   | > 5825 and < 5829   | 5829                           |
| object                   | > 5835 and < 5839   | 5839                           |
| object                   | > 5845 and < 5849   | 5849                           |
| object                   | > 5915 and < 5919   | 5919                           |
| object                   | > 5926 and < 5929   | 5929                           |
| object                   | > 5935 and < 5939   | 5939                           |
| object                   | > 5945 and < 5949   | 5949                           |
| object                   | > 5955 and < 5959   | 5959                           |
