Create credit card transactions

After the above steps are completed, you can use one of the following three methods to create credit card transactions in ASCENDER.

1. Requisition in Purchasing

[Purchasing > Maintenance > Create/Modify Requisition](#)

Create a requisition.

- In the **Credit Card Code** field, press the SPACEBAR to view a list of credit card codes tied to your user profile. Select the appropriate credit card code.

Keep in mind that the vendor selected on the requisition is the vendor that is being paid with the credit card, not the credit card company.

Soft encumbrance:

Post the payable transaction:

[Finance > Maintenance > Credit Card > Posting - PO Tab](#)

Save File ID: C

Processing - PO tab.

- In the **Type** field, select the type of credit card transaction (*Purchase or Return*).
- In the **Credit Card Code** field, select the credit card code for the card used.
