# Table of Contents

**Other functions and features:** ..... i

The Create Report page allows you to create a customized report within an application for inactive/active employees.

### Run a report from a saved template:

<b>Report Template</b>	<p>Begin typing all or part of the name of an existing report template, or press the space bar to view all the templates. As you begin to type, a drop-down list displays report templates with titles that match the letters you have typed. From the drop-down list you can select the template. Only templates you created are listed in the drop-down list.</p> <p>If you do not know the name of the report template, click <a href="#">Directory</a> to select a report template from the directory. From the directory, you can select templates you created as well as public templates.</p>
------------------------	--

- Once the template is selected, press ENTER to populate the selections.

### Create a new template:

<b>Report Template</b>	Type the name of a new report template. Only alphanumeric characters are allowed. If you type a name that is already used, it will overwrite the previous template.
<b>Public</b>	Select to make the report accessible to other users. All users in the district who have access to this page will be able to use the template.

- After entering the title and selecting the columns to include, click **Save**.

### Create a new report:

<b>Report Title</b>	Type a title for the report, up to 35 characters.
<b>Campus Options</b>	

- The fields are grouped by student table. Select the fields for which you want to print information. You can select an entire group of fields by selecting the group name (e.g., **Demographic Information**).
- Click **Create Report** to generate the report. [Review, save, and/or print the report.](#)

### Other functions and features:

<b>Sort</b>	<p><a href="#">Sort report data.</a></p> <p>You can rearrange the fields to indicate the order in which you want the sort applied. Click a field name, and drag it up or down to a new location.</p> <ul style="list-style-type: none"> <li>• In the right grid, for each field, click to indicate if you want that data sorted in ascending (e.g., A-Z, 0-9) or descending (e.g., Z-A, 9-0) order.</li> <li>• To remove a field from the sort, select the field, and</li> </ul>
-------------	--

<b>Filter</b>	<p><a href="#">Filter report data.</a></p> <p>When you want to view only certain data, you may find it useful to filter the report data. You can use specific criteria to retrieve only the data that you want. Not all reports allow this option.</p> <p>From the report window, click <b>Sort/Filter</b> to open the Sort/Filter window. By default, the <b>Sort Criteria</b> section is expanded. Click <b>Filter Criteria</b> to expand the <b>Filter Criteria</b> section. If the report does not allow sorting, the <b>Filter</b> button is displayed instead of the <b>Sort/Filter</b> button, and sort criterion fields are not available.</p> <p>Click <b>Add Criterion</b> to add new filter criteria. A blank row is added to the grid.</p>	
<b>Field</b>	<b>Description</b>	
<b>Column</b>	Select a field by which to filter the data. The drop down lists the columns that appear on the report.	
<b>Operator</b>	Select an operator.  = Equals ≠ Not equals > Greater than ≥ Greater than or equal to < Less than ≤ Less than or equal to	
<b>Value</b>	Type the value by which you want to filter. For example, if you selected a date in the <b>Column</b> field, type a date to view only data for a specific date. <b>Note:</b> When filtering report data by date, you must use the following formats: If the date is displayed in the MM/DD/YYYY format, the filter value must be in the YYYYMMDD format. If the date is displayed in the MM/YYYY format, the filter value must be in the YYYYMM format. If the date is displayed in the MM/YY format, the filter value must be in the YYMM format.	
<b>Other functions and features:</b>		
<b>Add Criterion</b>	<p><a href="#">Add another row.</a></p> <p>Select the logical connector (AND or OR) in the Logical field. Continue adding rows as needed.</p> <p>Using the AND operator limits search results, because the program looks only for records that contain both criterion. Using the OR operator expands search results, because the program looks for records that contain either one criterion or the other, or both.</p>	
<b>Delete Selected</b>	<p><a href="#">Delete selected row.</a></p> <p>Select the row, and then click the button. The row is deleted from the filter criteria.</p>	
<p>Click <b>OK</b> to apply the selected filter criteria to the report.</p> <p>Click <b>Cancel</b> to close the dialog box without applying a filter.</p>		
<b>Reset</b>	<p><a href="#">Reset report data.</a></p> <p>Click to restore the report to the original view, removing all sorting and filtering that has been applied.</p>	
<b>Delete</b>	<p><a href="#">Delete a report template.</a></p> <p>Select the template in the <b>Report Template</b> field and click <b>Delete</b>.</p>
