Continue

Select for the funds to be continued into the new fiscal year (i.e., funds maintaining the fiscal year even after the LEA begins the new fiscal year).
If selected, the following actions are automatically completed:
The 5XXX-8XXX account balances are created (the **Create 5XXX-8XXX** field is automatically disabled).

The budget amounts that match the ending balances in the historical file ID are set up for the 5XXX-8XXX accounts. For example, if only \$8,000 of a \$10,000 grant has been received, then the difference of \$2,000 is established as the estimated revenue.

The difference between revenue and expenditures will post to the Obj.Sobj in the **Actual Fund Balance Obj.Sobj** field on the [Finance > Tables > Account Codes > Fund](#) tab.

In the new historical file ID, accounts are inactivated for all continuing funds. Incremented funds remain active.

Only purchase orders that include continuing funds are re-encumbered. The purchase order is re-encumbered in file ID C for the original amount +/- encumbrance adjustments, +/- liquidation amounts from check and credit card transactions. Purchase orders that are split-funded and include funds where the fiscal year is only being incremented will be deleted. For example, if a purchase order is split between 211 (continuing fiscal year) and 199 (incremented fiscal year), then you will have to re-enter the purchase order in the new file ID.

Be aware that purchase orders containing continuing funds will be displayed in both the historical and new current file ID but should be paid in the new file ID.

The fiscal year is not updated on credit memos.

The fiscal year is not updated on outstanding Accounts Receivable invoices.

The fiscal year is not updated on payroll and PMIS distributions.

The following is optional:

Carry Forward Balances (1XXX-4XXX) - You can select this field to carry forward balances or unselect this field to carry forward only the account codes themselves without the balances.
