Copy Current File ID to New File ID i

Log on to file ID C.

Finance > Utilities > Move Current to New File ID

Create the new historical file ID. Copy file ID C to the historical file ID 8. At this point, **All** fund/years should be selected to be copied or moved.

It is recommended that you copy rather than move all fund/years to the new historical file ID. This is a precautionary measure in case an error occurs and you need to delete the funds from the historical file ID and run the process again.

In this example, all fund/years are copied to the new historical file ID 8; however, you can use a different file ID.
