Delete 1099 Data

Log on to file ID C.

[Finance > Utilities > Create 1099 Work Table](#)

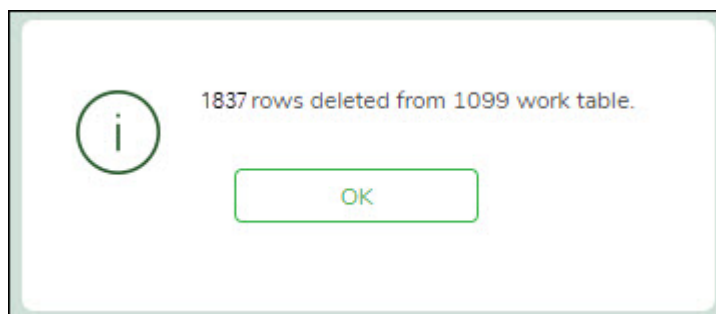

Delete 1099 historical data from the tables. If 1099 work table data is not deleted, backup files will not be imported.

Note: The Finance transactions are not affected when the 1099 work table transactions are deleted.

Leave the **Beginning Date** and **Ending Date** fields blank to delete all existing 1099 table data.

Click **Delete**. A message with the number of rows to be deleted from the 1099 work table is displayed.

Click **OK** to close the message box.
