Execute Select All Tables

- Click **Select All Tables** to select all of the tables.

OR

- Select ☐ next to the table(s) you want to include.
- Select ☐ again to unselect a table.

☐ Click  for the **School Calendar**. The School Calendars list is displayed. Select all of the necessary calendars.

Note: If you receive a database access error referencing your Summer School Calendar, click **OK**. This error is generated when a Summer School Calendar exists in the current year payroll frequency but does not exist in the next year payroll frequency. Select the tables you previously selected again, but in this instance, select the individual School Calendars to be copied.

☐ Click **OK**. All of the selected calendar codes are displayed in the **School Calendar** field.

☐ Click **Execute**. Only the selected tables are processed. As the reports are generated, click **Process** for each table. [Review the reports](#).

Review the process report to verify that all applicable calendars, extra duty pay, and job codes were copied to the current year payroll frequency. **It is recommended** that you log on to **Personnel > Tables > Workday Calendars** to verify this information. If the calendars were not copied over correctly, you may have to individually copy the calendars.

Note: When copying the school calendar table from next year to the current year, the calendar code, description, and days are copied. If a calendar code exists in the next year and current year, the next year data replaces the entire calendar contents for the current year for the specified calendar code.
