Create and maintain user accounts in Grants & Projects

Grants and Projects > Tables > Manage Users

Member users can create an account via MemberPortal; however, they will not have access to any grant information until the fiscal agent completes their user profile on this page. Fiscal agents must complete a user's profile by linking the user to a specific member and grant type, and assigning the level of access the user has to the grant type.

As a fiscal agent, you can add, change, and delete MemberPortal users.

TIP: It is recommended that fiscal agents create at least one MemberPortal user with admin permission for each member LEA. Admin users will have access to a Manage Users page in MemberPortal where they can perform all of these same tasks for users within their member LEA.

If the user created an account in MemberPortal, the user's information is displayed in the list of results. However, you will notice that the **Member** column is blank since their user profile has not been completed. At this point, the user does not have access to view any grant information in MemberPortal.

Click  to open the User detail pop-up window and enter the applicable data to complete the user's MemberPortal profile. The user's **First Name**, **Last Name**, **E-mail**, and **User Name** fields are automatically populated.

Add a record:

Click **Add User** to open the User detail pop-up window and enter the applicable data to add a new user and complete the user's profile.

When creating a new MemberPortal user or resetting a user's password, the change password date is set to 01/01/2000, which requires the user to change their password upon logging on to MemberPortal.
