Personnel > Tables > Salaries > Midpoint - Contracted and Non-contracted employees

If your LEA has employees who are not tied to a salary table, it may be helpful to create a midpoint table. For instance, if all LEA employees are assigned to a pay scale except for cafeteria workers and bus drivers, whose salaries vary, it can be difficult to maintain a consistent table setup. In this case, you can set up a midpoint table with different pay grades for each job and then assign employees to that table.

TIP: Consider grouping “like” jobs when setting up the midpoint table.
