## ER20 Employment of Retirees

The ER20 record is used to report employment information for retirees, regardless of retirement date or retirement type.

ER20 records are extracted per Primary Job and per Retiree Exception, the Retiree Exception will be the Retiree Employment Type if selected.

- Employees with multiple jobs will have multiple ER20 records reported.
- Any extra duty pay (XTRA job) that is not attached to the job with the Retiree Exception should be reported with the Primary Job.
- The TRS Adjustment Days extract will not extract a value for ER type records. Users are expected to update the extracted records with the Retiree Employment Type.
