RP20 Regular Payroll

The RP20 record is used to report TRS-eligible and non TRS-eligible employees' compensation and contribution information. Multiple RP20 records should be submitted for an employee with multiple jobs; one RP20 for each TRS position code. If the various jobs fall within the same position code, only one RP20 record should be submitted per TRS position code.

Per TRS, when reporting employees in non TRS-eligible positions, the only compensation data to be reported is the total gross compensation, no contribution data should be reported. The only exception is that employees in non-eligible positions may purchase Special Service through payroll deduction. Therefore, service credit purchase deduction may be reported for these employees. In addition, the hours worked/scheduled and days worked data must be reported for ALL employees.
