<b>Account Code</b>	An edit mask allows you to type the full 20-digit account number, mask the organization code, or mask the whole account number. If the organization code is masked, when extra duty is assigned to the employee, the organization code from the employee record would complete the code. If the entire code is masked, when extra duty is assigned to the employee, a complete account code must be entered on the distribution record for the employee.

**Note:** Each row can only be changed by a percent or dollar amount, not both, and if a row previously had a value entered in the **Amount Increase** column, and a value is entered in the **% Increase** column, the **Amount Increase** column changes to zero.

<b>% Increase</b>	Type the percentage of the increase.
<b>Amount Increase</b>	Type the dollar amount of the increase.
<b>New Amount</b>	This field is calculated by the system.
<b>Suppl Extra Days</b>	If the extra duty will be used for extra days that the employee works, type the number of additional days to be used for the simulation.  If this field is updated, the amount for any extra days worked is calculated. And, if the supplemental position is tied to the employee's regular position, the amount is calculated based on the daily rate of the regular position.
