pmis_district_admin_action_reason i

[District Administration > Tables > PMIS > Action Reason](#)

Action reason codes are used throughout the Position Management Information System (PMIS).

An action code is required when a change is made to a position record creates a historical record. Action Codes for termination transactions can be cross-referenced with the Termination Reason Codes on the [Human Resources > Tables > Job / Contract > Termination Reason](#) tab. Be sure to consider LEA-required data and statistics when creating the action reason codes.
